Covers all major cars imported into the U.S. and Canada and includes specifications, a troubleshooting guide, and maintenance and repair instructions

For ten years Gillis's The Car Book has been a top authoritative consumer resource for buying and living with a new car. He tells readers not only what to look for, but also what to look out for. Includes how to get the most for one's money, showroom strategies, the price/performance conflict, insurance costs, safety records, maintenance, resale value, choosing options, and more.

Fundamentals of Biomechanics introduces the exciting world of how human movement is created and how it can be improved. Teachers, coaches and physical therapists all use biomechanics to help people improve movement and decrease the risk of injury. The book presents a comprehensive review of the major concepts of biomechanics and summarizes them in nine principles of biomechanics. Fundamentals of Biomechanics concludes by showing how these principles can be used by movement professionals to improve human movement. Specific case studies are presented in physical education, coaching, strength and conditioning, and sports medicine.

A fully revised, updated edition provides authoritative evaluations of used car reliability and value, in a guide that includes helpful ratings charts. Original.

Provides guidance in choosing and purchasing used vehicles from 1990 to the present, recommends a variety of models, and includes information on recalls, price ranges, and specifications.

The bestselling and authoritative buying guide for new cars--now completely updated and expanded. Gillis is director of public affairs for the Consumer Federation of America and a columnist for Good Housekeeping.

David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.
