In Comeback, Pulitzer Prize-winners Paul Ingrassia and Joseph B. White take us to the boardrooms, the executive offices, and the shop floors of the auto business to reconstruct, in riveting detail, how America's premier industry stumbled, fell, and picked itself up again. The story begins in 1982, when Honda started building cars in Marysville, Ohio, and the entire U.S. car industry seemed to be on the brink of extinction. It ends just over a decade later, with a remarkable turn of the tables, as Japan's car industry falters and America's Big Three emerge as formidable global competitors. Comeback is a story propelled by larger-than-life characters -- Lee Iacocca, Henry Ford II, Don Petersen, Roger Smith, among many others -- and their greed, pride, and sheer refusal to face facts. But it is also a story full of dedicated, unlikely heroes who struggled to make the Big Three change before it was too late.

Covers in detail most of the servicing and repair of the Dodge/Mercedes-Benz Sprinter Van and Camper Diesel models 2151cc and 2686cc engines with model identification type 901, 902, 903, and 904 depending on the version.

For the first time in one volume, Phil Edmonston, Canada's automotive "Dr. Phil," covers all used vehicles, packing this guide with insider tips to help the consumer make the safest and cheapest choice possible from cars and trucks of the past 25 years.
