This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Push CSS3 and your design skills to the limit—and beyond! Representing an evolutionary leap forward for CSS, CSS3 is chock-full of new capabilities that dramatically expand the boundaries of what a styling language can do. But many of those new features remain undocumented, making it difficult to learn what they are and how to use them to create the sophisticated sites and web apps clients demand and users have grown to expect. Until now. This book introduces you to all of CSS3's new and advanced features, and, with the help of dozens of real-world examples and live demos, it shows how to use those features to design dazzling, fully-responsive sites and web apps. Among other things, you'll learn how to:

- Use advanced selectors and an array of powerful new text tools
- Create adaptable

background images, decorative borders, and complex patterns • Create amazing effects with 2D and 3D transforms, transitions, and keyframe-based animations • Take advantage of new layout tools to solve an array of advanced layout challenges—fast • Vastly simplify responsive site design using media queries and new layout modules • Create abstract and scalable shapes and icons with pseudo-elements • Leverage preprocessors and use CSS like a programming language within a stylesheet context Don't pass up this opportunity to go beyond the basics and learn what CSS3 can really do!

An insightful portrait of U.S. presidents from Franklin D. Roosevelt to George W. Bush. Hamilton examines their unique characters, their paths to Pennsylvania Avenue, their effectiveness as global leaders, and their lessons in governance, both good and bad.

This book is about those who demand what they deserve in life, then survive the aftermath. It's about taking control of destiny. About making hard choices and being viciously attacked over them. It's about the moment we become exhausted pleasing everybody else, and decide what "the others" think just doesn't matter anymore. Then we set ourselves free. It's about rejecting preconceived notions, following our hearts, and giving new meaning to "crazy." It's about the escapes we made - the well-planned, calculated ones, and the frantic, desperate ones. It's about messy breakups, verbal massacres and heartbreaking ends to bad situations that we walk away from badly scarred, but alive - and in awe of that blessed moment of clarity where our inner voice shrieked, "RUN! LIKE HELL!" and we listened. And to later when we realized that moment was a miracle. But mostly it's about life - gorgeous, screwed up, magnificent

Life and all the pain, love, loss and promises that go along with it. It's about dreams worth having and the ones we make come true. And even those we must leave behind. It's about finding the beat of our own drummer and fearlessly stomping to it. Burning Down Rome is the rock 'n' roll story of four unconquerable souls who nearly lost it all: Themselves, each other, and their passion... and then who reclaimed themselves and blazed beyond what the world said they could do.

Creating home decor items with vintage textiles is the latest hot sewing trend, fueled by the resurgence of interest in simpler times and lifestyles.

Night after night, Jema Shaw's dreams have become a haven for Thierry Durand. But his nocturnal visits have placed her in danger and brought her between two ancient enemies: the Brethren and the Darkyn.

Ours is the era of 'reinvention'. From psychotherapy to life coaching, from self-help manuals to cosmetic surgery, and from corporate rebranding to urban redesign: the art of reinvention is inextricably interwoven with the lure of the next frontier, the breakthrough to the next boundary – especially boundaries of the self. In this insightful and provocative book, Anthony Elliott examines 'reinvention' as a key buzzword of our times. Through a wide-ranging and impassioned assessment, Elliott reviews the new global forms of reinvention – from reinvention gurus to business reinvention, from personal makeovers to corporate rebrandings. In doing so, he undertakes a serious if often amusing consideration of contemporary reinvention practices, including super-fast weight loss diets, celebrity makeovers, body augmentations, speed dating, online

relationship therapies, organizational restructurings, business downsizings, and many more. This absorbing book is an ideal introduction to the topic of reinvention for students and general readers alike. Reinvention offers a provocative and radical reflection on an issue (sometimes treated as trivial in the public sphere) that is increasingly politically urgent in terms of its personal, social and environmental consequences.
