<p>Pulitzer Prize – winning author and “ one of our most talented biographers and historians ” (The New York Times) David Maraniss delivers a “ thoughtful, poignant, and historically valuable story of the Red Scare of the 1950s ” (The Wall Street Journal) through the chilling yet affirming story of his family ’ s ordeal, from blacklisting to vindication. Elliott Maraniss, David ’ s father, a WWII veteran who had commanded an all-black company in the Pacific, was spied on by the FBI, named as a communist by an informant, called before the House Un-American Activities Committee in 1952, fired from his newspaper job, and blacklisted for five years. Yet he never lost faith in America and emerged on the other side with his family and optimism intact. In a sweeping drama that moves from the Depression and Spanish Civil War to the HUAC hearings and end of the McCarthy era, Maraniss weaves his father ’ s story through the lives of his inquisitors and defenders as they struggle with the vital 20th-century issues of race, fascism, communism, and first amendment freedoms. “ Remarkably balanced, forthright, and unwavering in its search for the truth ” (The New York Times), A Good American Family evokes the political dysfunctions of the 1950s while underscoring what it really means to be an American. It is “ clear-eyed and empathetic ” (Publishers Weekly, starred review) tribute from a brilliant writer to his father and the family he protected in dangerous times.</p>
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<p>Thirty years after its publication, The Death and Life of Great American Cities was described by The New York Times as "perhaps the most influential single work in the history of town planning....[I]t can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the bitingly satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.</p>

## Download Ebook A Good American

America is a nation of firsts, from its pioneering innovation in technology and science to its politics, social affairs, and culture. But despite its intriguing and unique history, many Americans aren't as well-versed as they think they are when it comes to knowledge of the monumental events, people, and ideas that shaped this revolutionary country. Chock-full of surprising snippets of history you should know about, *A Patriot's A to Z of America: 76 Things Every Good American Should Know* is the eye-opening remedy for every aspiring good American, featuring 76 heroic events and creative individuals who surmounted great difficulties to achieve great things - going to the moon, wiring the planet, defeating the Nazis, setting up the first large democratic republic, and largely banishing starvation overseas - achievements of which no other nation can boast. Organized from A to Z, these exceptional tales are America's to tell and for you to discover.

Features 19 gems in the American short-story tradition, including "The Tell-Tale Heart" by Edgar Allan Poe, "Bartleby" by Herman Melville, "To Build a Fire" by Jack London, plus stories by Hemingway, Fitzgerald, Hawthorne, Twain, others.

Great hot dog recipes and side dishes from famous locales nationwide

A critical and comprehensive exploration of the influential Broadway musical analyzes *West Side Story* against a backdrop of its cultural period while considering its reflection of both classical Shakespeare conflicts and modern youth issues. Original.

This delightful collection of traditional recipes features such favorites as Apple Pie, Velvet Mocha Cream Pie, Whole Wheat Bread, Brandy Snaps, Blueberry Muffins, Date Nut Bread, Nut Lace Cookies, and many all-American treats.
