While most books follow a more traditional orientation, this book presents a unique and distinct approach. This was the first AIS book to accurately address the changing roles of accounting, accountants, and information technology within organizations. Understanding the activities, processes, and information needs of organization stakeholders remains the focus in the Second Edition. Students learn that in the competitive organizations of today and tomorrow, accountants cannot simply prepare and report information, they must take a more active role in business decisions, and provide solutions that impact the organization's bottom line.
