In the epic clash of Greece and Persia, a hero is forged - a monumental novel from the author of the Tyrant series. Arimnestos is a farm boy when war breaks out between the citizens of his native Plataea and their overbearing neighbours, Thebes. Standing in the battle line for the first time, alongside his father and brother, he shares in a famous and unlikely victory. But after being knocked unconscious in the melee, he awakes not a hero, but a slave. Betrayed by his jealous and cowardly cousin, the freedom he fought for has now vanished, and he becomes the property of a rich citizen. So begins an epic journey out of slavery that takes the young Arimnestos through a world poised on the brink of an epic confrontation, as the emerging civilization of the Greeks starts to flex its muscles against the established empire of the Persians. As he tries to make his fortune and revenge himself on the man who disinherited him, Arimnestos discovers that he has a talent that pays well in this new, violent world - for like his hero, Achilles, he is 'a killer of men'.

Diomidis Spinellis' first book, Code Reading, showed programmers how to understand and modify key functional properties of software. Code Quality focuses on non-functional properties, demonstrating how to meet such critical requirements as reliability, security, portability, and maintainability, as well as efficiency in time and space. Spinellis draws on hundreds of examples from open source projects--such as the Apache web and application servers, the BSD Unix systems, and the HSQLDB Java database--to illustrate concepts and techniques that every professional software developer will be able to appreciate and apply immediately. Complete files for the open source code illustrated in this book are available online at: <http://www.spinellis.gr/codequality/>

This introductory text explores the historical and contemporary relevance of religion to social life, through an examination of practice and belief. Author Hunt reconsiders how theories and concepts are lived at the level of selfhood and cultural identity, through religious and spiritual belief. At the same time he looks at contemporary changes in religious life and how these are impacted by socialization, institutional belonging, and belief, and at the significance of class, gender, age and ethnicity. Individual chapters cover a range of issues, such as: religion, identity and community secularization and pluralism traditional Christianity: change and continuity globalization and the global context religion and ethnicity. The text challenges much current sociological thought and deals with contemporary Christianity, a range of world faiths and new and developing expressions of religion and spirituality. With tables and diagrams to illustrate key points and trends, it provides an accessible and captivating introduction to the sociology of religion.

Have you ever loved someone so much, you were willing to give up your life? Jackson Marley Richardson is a man who is about to make a decision. A decision you make only once. A determination of whether he should live or die. He is faced with a life that has not turned out how he thought it would. He's faced with a decision that he doesn't want to make, yet thinks he must, because of his love for his wife and children. Jack represents everyman and everywoman. Like all of us who are forced to make a decision in a world, not the one we thought it would be or should be, but a world that has turned upside down. A world where religion has turned from love to acrimony. A world where politics has pitted players on the same team against each other. Love in the time of Coronavirus is a book about reflection, questioning, and realizations about our world, and how it is forcing many to just bury their heads in the sand and give up, or for some to recommit to helping foster change through love, friendship, and a renewed faith in the individual's ability to be the agent of that change. It is the deep look into the mirror: we all must take at some point in life. Now is that time. The book is an astonishing and enlightening journey and a life adventure, reflecting on extraordinary times with Jack's wife, family, and friends, not thinking of what he missed but appreciating all that is. It is a profound book about life, love, and friendships today that will resonate with all. Love in the time Coronavirus offers a compelling, insightful look into love, politics, bigotry, faith, and friendship. The loving romanticism and exciting plot will keep you enraptured throughout. With a myriad of twists and turns, the ending will astound you.

The Carbon Nanomaterials Sourcebook contains extensive, interdisciplinary coverage of carbon nanomaterials, encompassing the full scope of the field: from physics, chemistry, and materials science to molecular biology, engineering, and medicine in two comprehensive volumes. Written in a tutorial style, this second volume of the sourcebook: Focuses on nanoparticles, nanocapsules, nanofibers, nanoporous structures, and nanocomposites Describes the fundamental properties, growth mechanisms, and processing of each nanomaterial discussed Explores functionalization for electronic, energy, biomedical, and environmental applications Showcases materials with exceptional properties, synthesis methods, large-scale production techniques, and application prospects Provides the tools necessary for understanding current and future technology developments, including important equations, tables, and graphs Each chapter is dedicated to a different type of carbon nanomaterial and addresses three main areas: formation, properties, and applications. This setup allows for quick and easy search, making the Carbon Nanomaterials Sourcebook: Nanoparticles, Nanocapsules, Nanofibers, Nanoporous Structures, and Nanocomposites a must-have reference for scientists and engineers.

In the Third Edition of Ken Allan's highly-praised Contemporary Social and Sociological Theory book, sociological theories and theorists are explored using a straightforward approach and conversational, jargon-free language. Filled with examples drawn from everyday life, this edition highlights diversity in contemporary society, exploring theories of race, gender, and sexuality that address some of today's most important social concerns. Through this textbook students will learn to think theoretically and apply to their own lives.
