We describe in this book, new methods and applications of hybrid intelligent systems using soft computing techniques. Soft Computing (SC) consists of several intelligent computing paradigms, including fuzzy logic, neural networks, and evolutionary algorithms, which can be used to produce powerful hybrid intelligent systems. The book is organized in five main parts, which contain a group of papers around a similar subject. The first part consists of papers with the main theme of intelligent control, which are basically papers that use hybrid systems to solve particular problems of control. The second part contains papers with the main theme of pattern recognition, which are basically papers using soft computing techniques for achieving pattern recognition in different applications. The third part contains papers with the themes of intelligent agents and social systems, which are papers that apply the ideas of agents and social behavior to solve real-world problems. The fourth part contains papers that deal with the hardware implementation of intelligent systems for solving particular problems. The fifth part contains papers that deal with modeling, simulation and optimization for real-world applications.

Nationally recognized communication expert Debra Fine reveals the techniques and strategies anyone can use to make small talk--in any situation. Do you spend an abnormal amount of time hiding out in the bathroom or hanging out at the buffet table at social gatherings? Does the thought of striking up a conversation with a stranger make your stomach do flip-flops? Do you sit nervously through job interviews waiting for the other person to speak? Are you a "Nervous Ned or Nellie" when it comes to networking? Then it's time you mastered *The Fine Art of Small Talk*. With practical advice and conversation "cheat sheets," *The Fine Art of Small Talk* will help you learn to feel more comfortable in any type of social situation, from lunch with the boss to an association event to a cocktail party where you don't know a soul.

In 1998, "Entrepreneur" magazine editor Lesonsky and her staff "wrote the book" on startups that became a national bestseller and a life-changing resource for hundreds of thousands of entrepreneurs. Now they have created the third edition, including new information for today's business world.

After her nightmarish recovery from a serious car accident, Faye gets horrible news from her doctor, and it hits her hard like a rock: she can't bear children. In extreme shock, she breaks off her engagement, leaves her job and confines herself in her family home. One day, she meets her brother's best friend, and her soul makes a first step to healing.
