archaeological and textual, that forms the basis of our knowledge of the development of Anatolia from the earliest arrivals to the end of the Iron Age. Much new material has recently been excavated and unlike Greece, Mesopotamia, and its other neighbours, Turkey has been poorly served in terms of comprehensive, up-to-date and accessible discussions of its ancient past. Ancient Turkey is a much needed resource for students and scholars, providing an up-to-date account of the widespread and extensive archaeological activity in Turkey. Covering the entire span before the Classical period, fully illustrated with over 160 images and written in lively prose, this text will be enjoyed by anyone interested in the archaeology and early history of Turkey and the ancient Near East.

The Traveller's History series is designed for travellers who want more historical background on the country they are visiting than can be found in a tour guide. Each volume offers a complete and authoritative history of the country from the earliest times up to the present day. A Gazetteer cross-referenced to the main text pinpoints the historical importance of signs and towns. Illustrated with maps and line drawings, this literate and lively series makes ideal before-you-go reading, and is just as handy tucked into suitcase or backpack. Each volume includes: -- Historical Maps -- Line Drawings -- A-Z Gazetteer -- Select Bibliography -- Index -- Chronology of Major Events -- List of Monarchs and Heads of State. Turkey boasts a legacy of extraordinary richness and magnificence. From the dawn of civilization Anatolia spawned great empires of her own - Hittite, Phrygian and Lydian - and then felt the mark of Persia, Greece and Rome. The story of the country is one of migration and conquest, artistic and spiritual splendour and cities and gods trampled underfoot. The brutal greatness of this complex past is reflected in the ruins populating the region's immense landscape. Some sites, such as Homer-haunted Troy, white marbled Ephesus and the lofty acropolis of Pergamon, are already familiar to the modern visitor. More intrepid travellers encounter fallen cities that may be less famous, but are no less spectacular. They leave wondering what yet awaits discovery along the timeless Aegean coastline, either buried in the shadows of resin-scented pine-forests or clinging to the foothills of distant, snow-capped mountains. In "Kingdoms of Ruin", acclaimed photographer Jeremy Stafford-Deitsch presents 150 sublime full-colour images to illustrate the unparalleled glory of Anatolia's matchless ancient sites. Some are world famous, some are known only to scholars while a few are visited only by shepherds and treasure hunters. Introduced by an extensive contextualising essay, "Kingdoms of Ruin" will be essential reading for historians of antiquity and armchair travellers alike.

The twenty two essays collected in Turkish Language, Literature and History offer insights into Turkish culture in the widest sense. Written by leaders in their fields from North America, Europe and Turkey, these essays cover a broad range of topics, focusing on various aspects of Turkish language, literature and history between the eighth century and the present. The chapters move between ancient and contemporary literature, exploring Sultan Selim ' s interest in dream interpretation, translating newly uncovered poetry and exploring the works of Orhan Pamuk. Linguistic complexities of the Turkish language and dialects are analysed, while new translations of 16th century decrees offer insight into Ottoman justice and power. This is a festschrift volume published for the leading scholar Bob Dankoff, and the diverse topics covered in these essays reflect Dankoff ' s valuable contributions to the study of Turkish language and literature. This cross-disciplinary book offers contributions from academics specialising in linguistics, history, literature and sociology, amongst others. As such, it is of key interest to scholars working in a variety of disciplines, with a focus on Turkish Studies.

"Arresting ... Stone ' s Turkey breaks the popular mould and introduces its readers to a place beyond their presumptions" —The Sunday Times In Turkey: A Short History the celebrated historian Norman Stone deftly conducts the reader through the fascinating and complex story of Turkey ' s past, from the arrival of the Seljuks in Anatolia in the eleventh century to the modern republic applying for EU

membership in the twenty-first. It is an account of epic proportions, featuring rapacious leaders such as Genghis Khan and Tamerlane, the glories of Sultan Süleyman the Magnificent, and Kemal Atatürk, the reforming genius and founder of modern Turkey. For six hundred years Turkey was at the heart of the Ottoman Empire, a superpower that brought Islam to the gates of Vienna and stretched to North Africa, the Persian Gulf, and the river Volga. Stone examines the reasons for the astonishing rise and the long decline of this world empire and how for its last hundred years it became the center of the Eastern Question, as the Great Powers argued over a regime in its death throes. Then, as now, the position of Turkey—a country balanced between two continents—provoked passionate debate. Stone concludes the book with a trenchant examination of the Turkish republic created in the aftermath of the First World War, where East and West, religion and secularism, and tradition and modernization are vibrant and sometimes conflicting elements of national identity.

Nearly two-thirds of the New Testament—including all of the letters of Paul, most of the book of Acts, and the book of Revelation—is set outside of Israel, in either Turkey or Greece. Although biblically-oriented tours of the areas that were once ancient Greece and Asia Minor have become increasingly popular, up until now there has been no definitive guidebook through these important sites. In *A Guide to Biblical Sites in Greece and Turkey*, two well-known, well-traveled biblical scholars offer a fascinating historical and archaeological guide to these sites. The authors reveal countless new insights into the biblical text while reliably guiding the traveler through every significant location mentioned in the Bible. The book completely traces the journeys of the Apostle Paul across Turkey (ancient Asia Minor), Greece, Cyprus, and the islands of the Mediterranean. A description of the location and history of each site is given, followed by an intriguing discussion of its biblical significance. Clearly written and in non-technical language, the work links the latest in biblical research with recent archaeological findings. A visit to the site is described, complete with easy-to-follow walking directions, indicating the major items of archaeological interest. Detailed site maps, historical charts, and maps of the regions are integrated into the text, and a glossary of terms is provided. Easy to use and abundantly illustrated, this unique guide will help visitors to Greece, Turkey, and Cyprus appreciate the rich history, significance, and great wonder of the ancient world of the Bible.

Students of antiquity often see ancient Turkey as a bewildering array of cultural complexes. Ancient Turkey brings together in a coherent account the diverse and often fragmented evidence, both archaeological and textual, that forms the basis of our knowledge of the development of Anatolia from the earliest arrivals to the end of the Iron Age. Much new material has recently been excavated and unlike Greece, Mesopotamia, and its other neighbours, Turkey has been poorly served in terms of comprehensive, up-to-date and accessible discussions of its ancient past.
