A MUST-READ for those who hunger for the truth. One of my all-time favorite novels that I've read many times. I'd lost my old copy and was thrilled to find it on Amazon.

Ape and Essence. by Aldous Huxley. Copyright, 1948, by Aldous Huxley. I. TALLIS. It was the day of Gandhi's assassination; but on Calvary the sightseers were more interested in the contents of their picnic baskets than in the possible significance of the, after all, rather commonplace event they had turned out to witness.

When Aldous Huxley's *Brave New World* first appeared in 1932, it presented in terms of purest fantasy a society bent on self-destruction. Few of its outraged critics anticipated the onset of another world war with its Holocaust and atomic ruin. In 1948, seeing that the probable shape of his anti-utopia had been altered inevitably by the facts of history, Huxley wrote *Ape and Essence*. In this savage novel, using the form of a film scenario, he transports us to the year 2108. The setting is Los Angeles where a "rediscovery expedition" from New Zealand is trying to make sense of what is left. From chief botanist Alfred Poole we learn, to our dismay, about the twenty-second-century way of life. "It was inevitable that Mr. Huxley should have written this book: one could almost have seen it since Hiroshima is the necessary sequel to *Brave New World*."—Alfred Kazin. "The book has a certain awesome impressiveness; its sheer intractable bitterness cannot but affect the reader."—Time.

Similar in theme to his most well-known work *Brave New World*, Aldous Huxley's *Ape and Essence* is a work of dystopian fiction that looks to critique the rise of global warfare in the modern age. Told in two parts, the novel opens in 1948 with the discovery of a screenplay by two movie industry moguls, who then set out on a journey to find the work's author, William Tallis. The second half of the novel is dedicated to the screenplay itself, launching the reader into a futuristic Los Angeles that has been ravaged by the events of World War III. Vivid in its imagining of a world marked by barbarism and depravity, *Ape and Essence* offers a sharp critique of the brutal aftermath that war can bring about—thus perfectly representing Huxley's now acclaimed satirical style. The visionary legacy of Aldous Huxley is as relevant today as ever. Huxley possessed a sober understanding of the human condition as well as an inspired vision of the human potential. This volume presents an interdisciplinary examination and appreciation of Aldous Huxley ' s three visionary novels – Brave New World (1932), Ape and Essence (1948), and Island (1962) – to reveal the extent to which Huxley ' s prognoses into our possible futures was prophetic. The author assesses each novel to reveal the foresights that define our current educational, social, religious, political, and economic institutions, while also exposing our conflicts within those institutions. This volume examines the educational, cultural and technological changes that have shaped our society since Huxley ' s work, with special reference to the enduring legacy of educational philosopher John Dewey. It offers profound insights into the educational forces and moral foundations of our society that shape us, both inside and outside of our schools. It is the first of its kind to focus exclusively on all three of Huxley ' s visionary novels and detail their relevance to our world today.
