The papers in this volume consider the innovation process in vehicle design. Topics include: trends in propulsion technology; powertrain development methods; hybrid vehicle technologies; choice of components; vehicle design and visualization; and vehicle systems technologies.

The history of inventions was born more than 10 centuries ago. 10,000 years of inventions and creations of the human being, of the so-called *Homo Sapiens*. This book traces the history of the most important inventions and discoveries that have happened throughout the centuries, this work defines in an extended and very complete way the definition of all those creations that some geniuses created in their day. From the most remote antiquity, those stone tools created in the era of
