The Society of Trauma Nurses is a professional nonprofit organization whose mission is to ensure optimal trauma care to all people locally, regionally, nationally and globally through initiatives focused on trauma nurses related to prevention, education and collaboration with other healthcare disciplines.

Student Course Manual

This is a comprehensive review for the new trauma-certified registered nurse exam, featuring innovative clinical judgment--enhancing content review, 500 practice-test Q&As with rationales, test-taking skills, and in-depth coverage of the test blueprint. This review is distinguished by its unique "Think in Questions" format, which helps readers to anticipate the kinds of questions that might be asked and promotes critical thinking throughout the exam. The content review is comprised of bite-size sections for easier learning and memorization that include thousands of unfolding questions, answers, and hints. The review's user-friendly format guides candidates through each topic with a short content review followed by a Socratic-style Q&A reasoning process to assist in arriving at the best possible clinical judgment. It also includes plentiful tables and charts to reinforce learning, a chapter on test-taking skills, specific guidance on preparing for the certification exam, and useful suggestions related to the exam format. Key Features: Goes beyond mere memorization of facts with "Think in Questions" Socratic-style content review Provides content review, practice exam-style Q&A with rationales, test-taking skills, and test blueprint format Includes thousands of unfolding questions, answers, and hints Contains "bite-size" sections for each topic for easier learning and memorization Includes 500 exam-style questions with rationales The Board of Certification for Emergency Nursing (BCEN) is the sole owner of the Trauma Certified Registered Nurse (TCRN) certification program.

BCEN does not endorse any TCRN certification exam review resources or have a proprietary relationship with Springer Publishing Company.

Learn to provide state-of-the-art care to any patient in any setting with the most comprehensive trauma nursing resource available. Using the unique cycles of trauma framework, *Trauma Nursing: From Resuscitation Through Rehabilitation, 5th Edition* features coverage of cutting-edge research findings and current issues, trends, and controversies in trauma nursing. The thoroughly updated fifth edition guides you through all phases of care - from preventive care and the time of injury to the resuscitative, operative, critical, intermediate, and rehabilitative stages. Plus, new chapters address unique trauma patient populations including pregnant women, children, the elderly, bariatric individuals, burned patients, those with a history of substance abuse and organ donors. With timely discussions on emerging topics such as mass casualty events and rural trauma, this is the most complete resource available for both students and experienced trauma nurses. **UPDATED!** Disaster preparedness, response and recovery for mass casualty incidents prepares students to act quickly and confidently in the event of a disaster, with guidelines for initial response and sustained response. **UPDATED!** The latest sepsis protocols, opioid use and pain/sedation protocols, and treating injured patients with diabetes. Special populations coverage prepares you to meet the needs of unique trauma patient populations including pregnant women, children, the elderly, bariatric individuals, burn patients, those with a history of substance abuse and organ donors. Coverage of specific issues that affect all patients regardless of their injury, gives you a solid understating of mechanism of injury, traumatic shock, patient/family psychosocial responses to trauma, pain, anxiety, delirium and sleep management; infection; wound healing, and nutrition. Tables and illustrations throughout add clarity to the content being discussed. **NEW!** Information on a team-centered, interdisciplinary approach to care. **NEW!** Up-to-date evidence-based information about issues that affect trauma care systems, includes injury pathophysiology, and state-of-the-art care for the trauma patient during all phases of care. **NEW!** All new content includes information on cultural sensitivity, care for caregivers, and how to handle self-harm injuries and suicide. **NEW!** Certification review questions help you to prepare for certification by listing the correct answers and rationales. **NEW!** Current recommendations for measuring fluid administration responsiveness.

20-2811

This is the first book exploring the unique dynamics created by a multidisciplinary trauma team and how crisis management strategies can improve teamwork and communication and, potentially, improve patient resuscitation outcomes. Crisis resource management (CRM) is integral to the way that we manage ourselves, team members, and patients during emergency situations. It is essentially the ability to translate knowledge of what needs to be done into effective actions during a crisis situation. Building on the revolutionary American College of Surgeons Advanced Trauma Life Support (ATLS®) course, *Trauma Team Dynamics* illustrates the integration of the principles of CRM to team dynamics throughout the resuscitation –from the scene, through pre-hospital care and transport, to the trauma bay, and finally to definitive care and beyond. The editors and contributors are international experts in trauma, critical care, emergency medicine, nursing, respiratory therapy, and pre-hospital care and include NASA- and United States military-affiliated experts. *Trauma Team Dynamics* is intended for use as both a day-to-day clinical resource and a reference text, and includes self-assessment questions as well as guidance on CRM curriculum design and implementation.

Acute Care Surgery is a comprehensive textbook covering the related fields of trauma, critical care, and emergency general surgery. The full spectrum of Acute Care Surgery is expertly addressed, with each chapter highlighting cutting-edge advances in the field and underscoring state-of-the-art management paradigms. In an effort to create the most definitive reference on Acute Care Surgery, an evidence-based approach is emphasized for all content included. Also, notable controversies are discussed in detail often accompanied by data-driven resolutions.

The first Situationist text to be published in the UK in 1974, 'Leaving the 20th Century' was Chris Gray and the English situationists' attempt to capture and distil the vibrant anti-art, anti-capitalist energy of the original International Situationist texts (1957-74). With its loose translations and irreverent commentary, Gray and co. attempted to capture the "terrorism, wit and general megalomania" of the original publications, whilst faithfully reprinting the "photographs of girls, soldiers, bombings, comic-strip frames, maps of cities and diagrams of labyrinths, cathedrals and gardens." From the art/anti-art beginnings, to the role of the Situationists in the worker-student insurrection of May 68', 'Leaving the 20th Century' remains the definitive English pro-situ text.
