A car PC or carputer is a car tricked-out with electronics for playing radio, music and DVD movies, connecting to the Internet, navigating and tracking with satellite, taking photos, and any electronic gadget a person wants in a car. All these devices are managed and controlled through a single screen or interface. The only place car PC enthusiasts can go for advice, tips and tools is a handful of hard-to-find Web sites--until now. Car PC Hacks is your guide into the car PC revolution. Packing MP3 players, handheld devices, computers and video-on-demand systems gives you a pile too heavy to carry. But add a car and put them together, you've got a powerful and mobile multimedia center requiring no lifting. The next time you give kids a lift, you won't hear, "Are we there yet?" Instead, expect "We're there already?" as they won't want to leave the car while playing video games from multiple consoles. Car PC Hacks is the first book available to introduce and entrench you into this hot new market. You can count on the book because it hails from O'Reilly, a trusted resource for technical books. Expect innovation, useful tools, and fun experiments that you've come to expect from O'Reilly's Hacks Series. Maybe you've hacked computers and gadgets, and now you're ready to take it to your car. If hacking is new and you would like to mix cars and computers, this book gets you started with its introduction to the basics of car electrical systems. Even when you're unclear on the difference between amps and watts, expect a clear explanation along with real-life examples to get on track. Whether you're venturing into car PC for the first time or an experienced hobbyist, hop in the book for a joy ride.

NOW WITH A FOREWORD BY RON RASH AND AN APPRECIATION BY DWIGHT GARNER "One of the finest books I know about blue-collar work in America, its rewards and frustrations . . . If you are among the tens of millions who have never read Brown, this is a perfect introduction." --Dwight Garner, The New York Times On January 6, 1990, after seventeen years on the job, Larry Brown quit the Oxford, Mississippi, fire department to try writing full-time. In On Fire, he looks back on his life as a firefighter. His unflinching accounts of daily trauma—from the blistering heat of burning trailer homes to the crunch of broken glass at crash scenes—catapult readers into the hard reality that drove this award-winning novelist. As a firefighter and fireman-turned-author, as husband and hunter, and as father and son, Brown offers insights into the choices men face pursuing their life’s work. And, in the forthright style we expect from Larry Brown, his narrative builds to the explanation of how one man who regularly confronted death began to burn with the desire to write about life.

A car PC or carputer is a car tricked-out with electronics for playing radio, music and DVD movies, connecting to the Internet, navigating and tracking with satellite, taking photos, and any electronic gadget a person wants in a car. Why waste a thousand words? Photos tell stories. And the more you can do with your digital camera, the better the story you can tell. So build a remote control and sneak up on that picture that keeps eluding you. Create an adapter that lets you use SLR-type lenses on your point-and-shoot. Play with lens magnification

or create a pinhole lens. Beef up flash memory. And that's just where the tale begins. The ending is up to you. Hack any digital camera Illustrated step-by-step directions for more than 20 hacks, including: Building triggers Accessing raw sensor data Making accessory lens adapters Eliminating the infrared blocking filter Extending lenses Making reverse macro adapters Building a monopod Creating bicycle and car mounts Hacking microdrives from other devices

The first edition of this book was written six years ago. Since then, there have been some significant developments in the area of car audio (and video). In addition, many of the products featured in the first edition are now obsolete. While the first edition of the book continues to sell, we have seen a bit of a slow-down at major accounts. This edition promises to be even more successful than the last. Car Stereo Cookbook, 2e is a completely revamped edition of a hugely successful title that continues to sell. This revised book will include new information on mobile video, satellite radio, mp3, wma, digital broadcast radio, and will eliminate the out-of-date products that are no longer pertinent.

After two years, MAKE has become one of most celebrated new magazines to hit the newsstands, and certainly one of the hottest reads. If you're just catching on to the MAKE phenomenon and wonder what you've missed, this book contains the best DIY projects from the magazine's first ten volumes -- a surefire collection of fun and challenging activities going back to MAKE's launch in early 2005. Find out why MAKE has attracted a passionate following of tech and DIY enthusiasts worldwide with one million web site visitors and a quarter of a million magazine readers. And why our podcasts consistently rank in the top-25 for computers and technology. With the Best of MAKE, you'll share the curiosity, zeal, and energy of Makers -- the citizen scientists, circuit benders, homemakers, students, automotive enthusiasts, roboticists, software developers, musicians, hackers, hobbyists, and crafters -- through this unique and inspiring assortment of DIY projects chosen by the magazine's editors. Learn to: Hack your gadgets and toys Program microcontrollers to sense and react to things Take flight with rockets, planes, and other projectiles Make music from the most surprising of things Find new ways to take photos and make video Outfit yourself with the coolest tools Put together by popular demand, the Best of MAKE is the perfect gift for any maker, including current subscribers who missed early volumes of the magazine. Do you or someone you know have a passion for the magic of tinkering, hacking, and creation? Do you enjoy finding imaginative and unexpected uses for the technology and materials in your life? Then get on board with the Best of MAKE!
