This comprehensive, evidence-based textbook presents the latest knowledge on bad breath, describing insights from basic research and offering expert guidance on current approaches to diagnosis and treatment. The new edition has been thoroughly updated to take account of recent advances in understanding. The opening chapters examine in detail the origins of bad breath, including from the nose and pharynx. Microbial and biochemical aspects are fully explained, and information is also provided on odor perception. The clinically focused chapters cover all forms of laboratory measurement of breath odors, chairside diagnostic techniques, and the full range of available treatment options. The value of self-administered questionnaires in assessing bad breath is discussed, and attention is paid to the problem in specific population groups and to psychological aspects. Finally, future prospects are reviewed. The authors draw on more than forty years of combined experience in the field, both in the laboratory and as consultants to thousands of patients. The book will be of interest to all dentists as well as ENT specialists and family physicians.

Presented in an easy-to-follow alphabetical format, extensively illustrated with photographs, written without jargon, and with all conditions usefully cross-referenced, A-Z of Cat Health and First Aid is the definitive guide for feline first aid and home nursing. Author Andrew Gardiner provides specialist knowledge and specific approaches that are tailored to the needs of cats, including background information needed to understand the causes of any problem, their urgency, and an outline of the treatment approach likely to be used by the vet. A complete reference to common cat health problems and conditions, this is the only book cat owners need when looking for information on practical first aid and complementary treatments.

Sometimes, even with the best possible oral hygiene, we can't seem to prevent bad breath. This can become extremely frustrating and affect our confidence in so many different ways. Unfortunately, bad breath is not always a reflection of our dental health. Bad breath can be related to different digestive problems and the overall state of our gastrointestinal tract. The best way to prevent and solve this problem is to take care of our entire digestive tract along with our teeth. The key to a healthy and clean digestive tract and fresh breath lies in the food we eat. Just like with everything else in our body, food has the ability to do some serious damage as well as the ability to heal us. When we talk about bad breath, there are some specific foods we have to consume in order to clean our mouth and destroy the bacteria responsible for these problems.

"What do you do when you see an injured animal? Most people pass by an accident victim even though they would like to help, simply because they have no idea what to do. Others panic and use methods and medicines that are wholly unsuitable. Nor can one rely blindly on vets. There are too few of them and even fewer who know about emergency procedures. As a result, injured animals in need of just simple life-saving treatment, die slow, agonising deaths. This book is for those people who appreciate the value of life. It is for those people who will use the power and knowledge they have been gifted as human beings, to come to the rescue of species less fortunate than ourselves. A ready reckoner for all emergency situations, keep it handy. This book could mean the difference between life and death for an animal.

Dr. Marty Becker has become known as "America's Veterinarian" because of his educational and entertaining shows and columns. For more than ten years, Dr. Becker has been the popular veterinary contributor to ABC-TV's Good Morning America and is now a member of Core Team Oz on Dr. Mehmet Oz's show. Dr. Becker will help owners solve problems and enhance their bond with their cats through a tip-filled book on everything from finding the right cat to preventing health problems and bad behavior. He will start owners off on the right foot, whether they buy a kitten or adopt an older cat, showing them how to solve the most annoying behavior and cat-care problems--from scratching furniture to not using the litter-box. (Surprising fact: did you know that black cats shed more than light-colored cats?) And he advises owners how to make their own cat toys, and how to save money on medication, both traditional and alternative.

The only fully comprehensive guide to "all things feline," from the host of Cat Chat on Martha Stewart Living Radio. Finally, a definitive book that delivers many unknown facts about every aspect of caring for and sharing your life with a cat, ranging from proper nutrition and strange behavior to medical care and multi-cat households, to grooming and geriatrics. The Cat Bible explains the mysteries of feline behavior to owners who are devoted to their cats without being able to fully understand them. It offers straightforward solutions to the problems that cause people to give up their cats, many of which are preventable, including litter box avoidance, furniture scratching, and physical ailments. There are more than 90 million American households that count cats as family members, but they are a vastly underserved population, devoted to their kitties, yet bereft of all the public attention, programming, and print devoted to dogs. Now, bestselling author and investigative journalist Tracie Hotchner offers them The Cat Bible, with straightforward, fact-filled solutions to health and behavior problems, based on years of research into the real reasons behind these issues. In the same warm, straightforward style that attracts devoted listeners to her radio shows, Tracie tackles controversial topics such as the truth about commercial dry pet foods and their dangers, bringing readers the latest facts on every topic that affects a feline's well-being.
