Review: "This book is a fantastic guide to online marketing, and the Internet in general. As a marketing practitioner, I've been finding my way own way through the online world for some time now but have always wondered if what I was doing was 'correct' and it would

take me ages to find out what I needed to know through researching online articles, blogs, etc. I found this book to be fairly concise and focused. The references to other online articles that it includes are vast and can they be very absorbing. The best part about this is that it is written by someone that clearly has vast

experience in the field and, unlike with some online articles, you get the feeling that what is advised is really 'best practice'. I'd recommend this book for anyone interested in digital marketing." Adam Butchart, Digital Marketing student

This short book has a dual purpose and is

aimed at two audiences:

Through practical instruction and guidance, it equips bishops to minister effectively as the chief pastor in the diocese, while helping clergy and congregations reduce the eternal anxiety around the words, "The bishop is coming."

Realizing that ceremonial custom

varies among dioceses and congregations, the author lays out some normative principles that should be followed in all liturgies at which the bishop presides or is present. His clear, engaging, and often humorous style will put the reader at ease when dealing with ceremonial material.

its liturgical life.

Through stories and first-person anecdotes, Weil does “narrative theology” as only he can. Although most points of reference are to the 1979 BCP, the book is aiming at a more fundamental level—not just Episcopal or even Anglican liturgy, but liturgical rites as such: how do they “do what

they do”?—or NOT do when they are done badly! “Liturgical Sense” is two dimensional: both the “common sense” of liturgical rites and also their “aesthetic sense.” It is Dr. Weil’s contention that in American culture we have an inherent inability to “think symbolically.” Dr. Weil

seeks to encourage a return to “liturgical sense” across the church.

Of all the skill sets that support the shift from a traditional management role to a more collaborative approach, none is more relevant than that of the role of the facilitator. The beliefs, behaviors, and

practices of facilitation are precisely what all leaders need to acquire and put into action. In *Facilitating to Lead!* renowned facilitation expert Ingrid Bens applies her proven concepts of facilitation to the leadership role and demonstrates that facilitation is an effective work style, not merely a meeting
