This book provides the quintessential information needed to understand the financial side of the retirement planning coin. Readers will begin by learning about the various plan types available to the employers to offer to their employees. The topics related to compliance testing are thoroughly discussed as well as strategies used to legally shift benefits in favor of the highly compensated employees. However, some employers do not sponsor a plan. In this instance, retirement savers will need to understand the options available in the world of individual retirement accounts. This book is not intended to provide investment advice, but rather to guide how different retirement savings vehicles function and how they can be effectively deployed. Many financial professionals find that their clients will ask questions about all aspects of their financial life. For this reason, this book also discusses non-investment-related topics, such as housing options, social security planning, Medicare planning, and a few other basic insurance-based issues faced by all retirees.

The Save a Life Initiative has just released its newest course: Basic Life Support. This manual is based on the 2015-2020 Basic Life Support guidelines published by the American Heart Association. The Basic Life Support (BLS) Provider Handbook is a comprehensive resource intended for health care professionals currently enrolled in a Basic Life Support Certification or Recertification Course. It serves as the primary training material for BLS Certification and Recertification courses. Although it is primarily intended for professionals to use during their courses, the handbook was also created to serve as daily resource material for health care professionals. Information covered in the handbook includes Basic Life Support instruction for adults and children, AED usage, airway obstruction and rescue breathing techniques, and more. Specific Algorithms for BLS and more are also included within the handbook. All material included in this handbook is delivered in a manner meant to enhance learning in the most comprehensive and convenient way possible.
