Music. Photography. Style. IA Studios debut issue of Alloy brings the talent of international model Allison Ronconi and the famed skills of Sacramento, California portrait photographer Abby Farabaugh together to produce a gallery of shots and articles to reflect how rock music and culture can shape personality while people navigate today's hectic world. The gallery is split into 4 parts: throwback photoshoot, album music covers, modern outdoor/lighted shoot, and a classic date night in for dinner. Experience how you can impact your world.

Turn your old bandanas into stylish new creations with these 21 fast, fun and easy-to-complete crafting projects for kids ages 8 and up. Full of inspiration for crafty kids, Bandana-rama shows how the classic bandana is also the ideal crafting material. Here you will find twenty-one easy inventive crafting projects that are easy for kids of all experience levels to complete. From headbands, belts, and hoodies, to pillows, guitar straps, and hoodie linings, all the projects can be achieved by hand sewing, machine sewing, or in some cases, by simply using scissors and glue. Since bandanas are prehemmed, they cut down on time spent sewing borders and following stitching lines. As a result, there's more time for kids to explore their creativity and come up with a style that's all their own.

Softcover: This book was originally published in England in 1920. The recorder is the Rev. G. Vale Owen, vicar of Orford, Lancashire. The famous Arthur Conan Doyle, someone who had a great deal of interest in Life after Death, contributed an introduction to all five volumes. The messages contained in this book were also published in a daily newspaper by the owner Lord Northcliffe. As such they were widely read, and widely acclaimed. Rev. George Vale Owen was even asked to go down to London to deliver a sermon on these communications. There did not appear to be any significant theological objections from the Church of England to what was set out, and in fact it was accepted that these communications were genuine "inspirational writings", that the Rev. G. Vale Owen was genuine, and that the writings were of great value. It is curious therefor that they have slipped into relative obscurity only 100 years later, even though they were widely accepted within the Church of England and beyond.

Captain Jim Hollister returns for his third and final tour in Vietnam in the thrilling trilogy finale from the author of Long Range Patrol and Night Work. In the increasingly divided Juliet Company, racial tensions are running high and morale is at an all-time low. Combat readiness seems tenuous. Captain Jim Hollister's first order of business is to bring his company back into fighting shape. To survive hot LZs, sleepless nights, and a tireless enemy, the men of Juliet Company have to train hard and then fight harder—and watch out for their brothers in arms. New commander Captain Jim Hollister makes extreme demands on his Rangers to enhance their combat expertise and survivability through rigorous training and preparations for each operation. As the US begins its withdrawal of troops, Hollister and his men are entrusted with gathering the critical intelligence needed to save American lives while attempting to eliminate or capture as many enemy soldiers as they can with their small teams of Rangers. From infiltration patrols into Viet Cong camps deep in Cambodia to critical oversight by a chain of command without much understanding of ranger patrol techniques, Hollister even has to protect his men from higher headquarters. The operations he oversees reveal the physical and psychological wounds of a war that can never be forgotten. Take Back the Night is

the searing final chapter in Dennis Foley's acclaimed Jim Hollister Trilogy.

Written in clear layman's terms, this forward-thinking book is packed with information to help gold and silver investors navigate an exciting, timely, and largely unexplored market.

In *Spoils of Truce*, Reinoud Leenders documents the extensive corruption that accompanied the reconstruction of Lebanon after the end of a decade and a half of civil war. With the signing of the Ta'if peace accord in 1989, the rebuilding of the country's shattered physical infrastructure and the establishment of a functioning state apparatus became critical demands. Despite the urgent needs of its citizens, however, graft was rampant. Leenders describes the extent and nature of this corruption in key sectors of the Lebanese economy and government, including transportation, health care, energy, natural resources, construction, and social assistance programs. Exploring in detail how corruption implicated senior policymakers and high-ranking public servants, Leenders offers a clear-eyed perspective on state institutions in the developing world. He also addresses the overriding role of the Syrian leadership's interests in Lebanon and in particular its manipulation of the country's internal differences. His qualitative and disaggregated approach to dissecting the politics of creating and reshaping state institutions complements the more typical quantitative methods used in the study of corruption. More broadly, *Spoils of Truce* will be uncomfortable reading for those who insist that power-sharing strategies in conflict management and resolution provide some sort of panacea for divided societies hoping to recover from armed conflict.

A group of barflies shares their life challenges during regular visits to a favorite drinking spot, in a tale that features such characters as a drunken advice columnist who eschews her own recommendations, an ex-con who falls for the same woman repeatedly, and a soup-maker who finds himself unable to talk to the woman he loves.
