The book Introduction to Agricultural Botany has been written with covering 21 families of Field and Horticultural crops, for the students of all agricultural universities. The undergraduate & post-graduate students of Botany subject of conventional universities of the country will also be benefited with this new type of book. The book covers nearly 72 crops, in 20 chapters where 3 chapters deals with fundamentals of botany and 13 chapters with botanical description of nearly 72 field and horticultural crops and one chapter with summary of botanical description of important cultivated crops and another 3 chapters for model questions of each one chapter consist of mid-semester, final theory and final practical examination questions. The book has been written in simple English & short format. This will be useful for student can easily understand the subject in both undergraduate and post graduate level. Additionally, this book also

Download Ebook Botany Practical Question Paper

has question bank for five respective units and also model question for mid semester, final theory and practical examinations. Hope this book would be helpful for undergraduates and post graduates students of agriculture. Additionally, question bank for each unit will provide strong knowledge to students for preparing higher studies as well as competitive exams of DBT-JRF, ICAR-NET and ARS exams.

This textbook presents a comprehensive treatment of Angiosperms by discussing its vital components, Taxonomy, Anatomy, Embryology including Tissue Culture and Economic Botany. Written in a simple and lucid style, it has abundance of relevant illustrations with self-explanatory diagrams. Information on new angiospermic families enhances the utility of the book. It caters primarily to the requirements of undergraduate students of Botany and would also be a useful source of reference for postgraduate students & candidates appearing for several competitive examinations.

This book is thoroughly revised and enlarged fifth edition. This volume covers the syllabus of UGC model curriculum and the syllabus prescribed in other Indian Universities situated in different parts of the country. • It has been divided into two units :Diversity of seeds plants and Their Systematics ;Structure, Development and Reproduction in Flowering Plants. • Several new descriptions and laboratory exercises have been added.
