Your broken faith and the Body of Christ The reason why the girl passed away rather than being healed is that the Body of Christ is fragmented and broken. This is why many are sick among us and some even sleep. While a church may have a common belief system the true unity that it takes to have God's power manifest in and through us is missing.

New York Times--bestselling October Daye series | Hugo Award--winning author Seanan McGuire | "Top of my urban-paranormal series list" | Felicia Day Includes a brand-new map and original bonus novella! Politics have never been October/Toby/ Daye's strong suit. When she traveled to the Kingdom of Silences to prevent them from going to war with her home, the Kingdom of the Mists, she wasn't expecting to return with a cure for elf-shot and a whole new set of political headaches. Now the events she unwittingly set in motion could change the balance of modern Faerie forever, and she has been ordered to appear before a historic convocation of monarchs, hosted by Queen Windemere in the Mists and overseen by the High King and Queen themselves. Naturally, things have barely gotten underway when the first dead body shows up. As the only changeling in attendance, Toby is already the target of suspicion and hostility. Now she needs to find a killer before they can strike again--and with the doors locked to keep the guilty from escaping, no one is safe. As danger draws ever closer to her allies and the people she loves best, Toby will have to race against time to prevent the total political destabilization of the West Coast and to get the convocation back on track--and if she fails, the cure for elf-shot may be buried forever, along with the victims she was too slow to save. Because there are worse fates than sleeping for a hundred years.

How many people do you know who say they believe in God . . . but you'd never know it from looking at their lives? Despite good intentions, their faith isn't life-changing or world-shaking; they may go to church on Sundays, but God doesn't seem to make much difference the other six days. Maybe this describes you, and you're starting to realize that the [before] of your life looks a lot like the [after]. Is that really the best life that faith in Jesus has to offer? International evangelist and speaker Luis Palau has encountered people from all walks of life who believe in God but have never experienced real, life-defining transformation. In Changed by Faith, he offers a gritty, up-close look at the broken world around us, the true redemptive power of the Gospel--and what it means for your life today. Through dramatic personal stories and solid Scriptural perspective, Luis looks at the practical changes that come when you begin to follow the teachings of Jesus Christ and shows how God can take the ashes of your life and transform them into something beautiful.

After your faith has fractured, let what takes its place be the real thing . . . at last. Somewhere along the way, the Christianity you knew began to crumble. You began to suspect your faith was misplaced. Disillusionment set in. Churches hurt you. Their people failed you. Christian institutions were exposed as fake. And in it all, God was silent. Is He gone? Or is God really there, waiting for you to find Him instead of the counterfeits? If you're walking this difficult spiritual path, Lina Abudjamma understands you. After experiencing the near deconstruction of her own faith, Lina had to rebuild something more solid when the faith she once knew let her down. With her diagnostic style that comes from her training as an ER doc, Lina helps you grapple with questions like: Where is God in my pain? Is this how Christians are supposed to act? Why did my story end up this way? Is this the normal Christian life? Why is it so hard for Christians to love? Let Fractured Faith help you find your way back to God. You just might discover that the real God has been waiting for you all along.

This book is a theological reflection on the broken state of faith within the Catholic Church in Ireland following more than two decades of revelations about institutional and child sexual abuse and the Church's now acknowledged failure to respond to the abuse in an appropriate way. The result has been broken lives, broken faith and a broken church.&gt; While the book has a theological purpose, it employs a see-judge-act methodology in attempting to come to terms with a very complex problem. Following a broad introduction, the first section sets out to listen to the voices of the victims. The second section consists of an interdisciplinary academic analysis, with significant input from psychology and also from history and social studies. The final section of the book engages in theology, seeking to place us in a Kairos moment that might allow us to look beyond our broken faith. This, however, requires an analysis of the theological misunderstandings that led to the aberration of clericalism, the resulting abuse of power and the wider malaise within the Church. St Paul is suggested as a mentor, as we seek to restore trust and rebuild the Church in a radically new way. The book ultimately seeks a renewal of our broken faith, searching for trajectories towards healing and wholeness, truth and reconciliation.

Hilary Mantel October, 1463 England is a divided nation. In the north, the Lancastrian king struggles to hold power, while in the south, the princes of the house of York prepare for war. Across this land, pursued by the Church and the Law, a young man, Thomas, and a young woman, Katherine, make their way, bearing proof of a secret both sides will kill to learn. Bent on revenge for a past outrage, Thomas and Katherine journey to the mighty castle of Bamburgh to join a weakening king as he marshals his army to take up arms in one of the most savage civil wars in history: the Wars of the Roses. Drawing on her personal experience and knowledge of religious history, Diana Butler Bass ex-amines the contours of the uniquely American relationships between church and state, Christian identity and patriotism, citizenship and congregational life. Broken We Kneel attempts to answer the central question with which so many people are struggling: do Christians owe their deepest allegiance to God or country? In writing both impassioned and historically informed, Bass reflects on current events and political questions that have sharpened the tensions between serious faith and national imperatives. This book incorporates the author's own experience of faith, her voca-tion as a writer and teacher, and her roles as wife, mother, and churchgoer into a larger conver-sation with Christian practice and contemporary political issues. Broken We Kneel is a call to re-member that the core of Christian identity is not always compatible with national political policies. This volume includes a new foreword and reflections on the sixteen years since the publication of the first edition. This second edition of Broken We Kneel includes a powerful new introduction by Rev. Robert W. Lee (author of A Sin By Any Other Name), and new reflections by Diana Butler Bass on the tensions of faith and citizenship, especially regarding race in a post-Charlottesville world. Broken We Kneel is both a lament and a plea for communities of faith to engage important issues. It would make a great group reading book during the upcoming election.
