First Class Dean Michaelis (Ret.) wrote the book on sniping, he wrote a first-of-its-kind program of instruction for the Special Operations Target Interdiction Course. A member of the 1st Special Forces Group, he taught students everything they needed to know to succeed and survive. This edition of Importing Into the United States contains material pursuant to the Trade Act of 2002 and the Customs Modernization Act, commonly referred to as the Mod Act. Importing Into the United States provides wide-ranging information about the importing process and import requirements. We have made every effort to include essential requirements, but it is not possible for a book this size to cover all import laws and regulations. Also, this publication does not supersede or modify any provision of those laws and regulations. Legislative and administrative changes are always under consideration and can occur at any time. Quota limitations on commodities are also subject to change. Therefore, reliance solely on the information in this book may not meet the "reasonable care" standard required of importers.
