They say Bethany Hamilton has saltwater in her veins. How else could one explain the tremendous passion that drives her to surf? How else could one explain that nothing - not even the loss of her arm in a horrific shark attack - could come between her and the waves? That Halloween morning in Kauai, Hawaii Bethany responded to the shark's stealth with a calmness beyond belief. Pushing pain and panic aside, she immediately thought: 'Get to the beach...' Rushed to the hospital, where her father, Ted Hamilton, was about to undergo knee surgery, Bethany found herself taking his spot in the operating theatre. When the first thing Bethany wanted to know after surgery was 'When can I surf again?' it became clear that her unfaltering spirit and determination were part of a greater story - a tale of courage and faith that this modest and soft-spoken girl would come to share with the world.

Money Masters "Successful trading demands longtime experience because it requires firsthand knowledge. If there is a shortcut to this requirement, however, it is in reading about the experiences of others. Jack Schwager's book provides that shortcut. If you find yourself sweating upon occasion as you read, then you're as close to the trading experience as you can get without actually doing it yourself."

Increasingly there is global attention on the prevalence of women's deaths resulting from intimate partner violence. Campaigns such as "Counting Dead Women" in Australia, the "Femicide Census" in England, the Canadian Femicide Observatory, and the emergence of family violence death review teams globally, build on the work of agencies such as the United Nations and the World Health Organisation, highlighting the fatal consequences of intimate partner violence for women around the world. This book considers the need for and the steps to be taken towards creating a meaningful

framework for a global index of women's deaths from intimate partner violence. While there are global indices for deaths that relate to public violence, such as terrorism, there is to date no systematic global count of killings of women by their intimate partners. It considers the possibilities and challenges that arise in counting intimate femicide. It argues that such an exercise needs to avoid narrow empiricism and instead be part of a broader feminist political project aimed at ending violence against women. This work will be of great interest to students and scholars of criminology, sociology, law, policing, and politics.
