approaches and learning tools.

Following the text's content, Richard Straub offers a Chapter Overview and Chapter Review, which is divided by major section. Each group of fill-in-the-blank and short-answer questions is preceded by the relevant objective from the text. The Study Guide also includes three self-tests (one of which encourages students to think critically about the chapter's concepts), answers (with page references for the self-tests and explanations of why a choice is correct or incorrect), and a Focus on Language and

theories and research in psychopathology and intervention. Its widely praised scientific clinical approach blends the clinical and empirical/experimental as the authors examine each disorder from multiple perspectives. The text emphasizes different paradigms with a particular emphasis on the diathesis-stress paradigm as necessary for understanding most psychopathologies.

The comprehensive study guide helps drive home concepts through active, participatory learning. The study guide is designed to be used in tandem with the reading of each
