Medical Assistant

Use this study tool to master the content from your Today's Medical Assistant: Clinical & Administrative Procedures, 2nd Edition textbook! Corresponding to the chapters in the textbook by Kathy Bonewit-West, Sue Hunt, and Edith Applegate, this study guide helps you understand and apply the material with practical exercises, activities, flashcards, checklists, review questions, and more. Chapter assignment tables at the beginning of chapters guide you through textbook and study guide assignments, and make it easy to track your progress. Laboratory assignment tables list the procedures in each chapter, including study guide page number references, and indicate the procedures shown on the DVDs. A pretest and posttest in each chapter measure your understanding with 10 true/false questions. Key term assessments include exercises to help in reviewing and mastering new vocabulary. Evaluation of Learning questions let you assess your understanding, evaluate progress, and prepare for the certification examination. Critical thinking activities let you apply your knowledge to real-life situations. Practice for Competency sections offer extra practice on clinical skills presented in the book. Evaluation of Competency checklists evaluate your performance versus stated objectives and updated CAHEP performance standards. Updated content includes exercises for topics such as electronic medical records, advanced directives, HIPAA, emergency preparedness, ICD-10 coding, documentation, medical office technology, medical asepsis, vital signs, pediatrics, colonoscopy, IV therapy, and CLIA waived tests. New activities provide practice for the Today's Medical Assistant textbook ' s newest and most up-to-date content. New Emergency Protective Practices for the Medical Office chapter includes procedures, critical thinking questions, and other activities to help you understand emergency preparedness. New Wheelchair Transfer Procedure and Evaluation of Competency checklist includes a step-by-step guide to this important procedure. New video evaluation worksheets on the Evolve companion website reinforce the procedures demonstrated on the textbook DVDs. New practicum and externship activities on Evolve provide practice with real-world scenarios.

This money saving package includes Young: Kinn's The Medical Assistant 10e and Medisoft Version 14 Demo CD.

Medical Assisting, 4/e addresses the most current competencies for medical assisting certification, CPR procedures, coding and insurance billing requirements, HIPAA regulation, OSHA guidelines, and clinical diagnostic testing such as hemoglobin A1c (diabetes) testing. Thorough coverage of procedures remains an asset and Anatomy & Physiology coverage is included in separate chapters. It trains students on medical office administrative procedures and equipment, clinical procedures, infection control, anatomy and physiology, assisting with patients, medical emergencies and first aid, laboratory procedures, nutrition, pharmacology, diagnostic equipment, and much more.

Administrative Medical Assisting, 5th edition, is the most comprehensive, hands-on text and workbook learning package available for medical office administration students and professionals. The text features a new chapter on office managerial responsibilities, compliance topics integrated throughout the text, and content on computer use in the medical office integrated within the chapters. The text emphasizes a customer-service approach to the provision of health care. Guidelines leading to an improved health care consumer/provider relationship are included in each chapter. Icons identify content on legal issues, patient education, computer applications, related workbook exercises, and resources. Job skills are provided in a step-by-step format.
