Skills in English Reading Level 1 Teacher's Book The Garnet Education Skills in English series was highly commended in the Duke of Edinburgh English Speaking Union English Language Book Award in 2004. Do you have to read texts in English as part of your studies? Then you need Skills in English Reading. This course builds the skills that help you do reading research in English. At Level 2, you learn how to: skim for the main idea; skim for the topic of paragraphs; read for an established purpose; understand non-text markers; distinguish fact from opinion; make inferences - 'read between the lines'; recognise the author's point of view; apply ideas to real-world situations; transfer information, e.g., text to outline; and react to a text. As well as preparing students for entry into English-medium study, the Skills in English Course is ideal for students who wish to improve their scores in skills-based examinations for university entry requirements, such as the International English Language Testing System (IELTS). Rather than focusing on exam preparation, Skills in English teaches the necessary skills as part of a systematic programme of language development. Skills in English courses are also available in Listening, Speaking and Writing. See the Skills in English website at skillsinenglish.com for additional materials and help. Key Features Reading texts a maximum of 500 words Listening texts a maximum of 800 words Speaking tasks up to five paragraphs, with writing assignments between five and ten well-structured paragraphs Test booklets containing theme tests, a revision test after five units, plus an end-of-course test Teacher's Book containing full answer keys, methodology notes and transcript of listening material Accompanying Teacher's Book, Student Test Pack and Teacher Test Booklet also available.

A three-level (B1+ to C1) integrated skills course for higher education students at university or on foundation courses. Designed specifically for students preparing for university, this integrated skills course develops the language and real academic skills essential for successful university studies across disciplines. With authentic lectures and seminars, and with language informed by the Cambridge Academic Corpus and Academic Word Lists, the course guarantees that the English and the study skills students learn are up to date and relevant to them. The Teacher's Book provides extensive teacher support including teaching notes and additional worksheets for the classroom.

"Close-up brings English to life through spectacular National Geographic photography and facts carefully selected to appeal to the inquisitive minds of students"--back cover.

Active Listening, Second Edition, is grounded in the theory that learners are more successful listeners when they activate their prior knowledge of a topic. Teacher's Manual 2 contains step-by-step practical teaching notes, optional speaking activities and listening strategies, culture notes, and suggested times for completing lessons. Photocopiable unit quizzes, two complete tests with Audio CD, and complete answer keys are also included.
