With content targeted specifically toward the college-age population, Fitness and Wellness: A Way of Life With HKPropel Access presents evidence-based physical and mental health guidance to point students toward healthy choices that will develop into healthy lifestyles. Authors Carol K. Armbruster, Ellen M. Evans, and Catherine M. Laughlin have more than 80 years of combined health and wellness professional experience, the majority of which has focused on the college population. This enables them to present the material in a contemporary manner that is easily relatable and understood by students. Relevant information on topics such as cardiovascular exercise, strength training, stretching, nutrition, weight management, stress management, substance abuse and addiction, and sexual health will start students on the path to developing a healthy mind and body, which can lead to a better quality of life. Additionally, because Fitness and Wellness: A Way of Life emphasizes behavior modification to develop desired habits, students are armed with the tools they need to make healthy lifestyle changes—for both the present and future: Related online learning tools delivered through HKPropel offer 48 video clips and practical learning activities to provide real-life context to the material Behavior Check sidebars help students integrate health and wellness concepts into their daily lives Now and Later sidebars encourage students to consider how their actions today will affect them in the future The Functional Movement Training section shows exercises to strengthen specific muscles and explains their importance for common activities Infographics, evidence-based tables, and figures illustrate and reinforce key concepts so they are easy to understand The online activities in HKPropel offer students the unique opportunity to engage directly with the content and practice the exercises and strategies presented. In addition to the 48 exercises demonstrating proper exercise technique, lab activities for each chapter will guide students in completing individual assessments, setting goals, and identifying the pros and cons of modifying their behavior. The labs may be assigned by instructors and tracked within HKPropel, and chapter quizzes (assessments) that are automatically graded may also be assigned to gauge student comprehension of the content. The primary goal of Fitness and Wellness: A Way of Life is to provide a personal, evidence-based tool to help students embrace living well. They will learn how to make healthy choices and positive behavior changes to lead and sustain healthier, happier, and more productive lives, now and in the future. Note: A code for accessing HKPropel is not included with this ebook but may be purchased separately.

Concepts of Fitness and Wellness: The Fundamentals is the new brief edition of the time-tested Concepts books. This book provides the basic information needed to get started developing a healthy lifestyle. The Corbin/Lindsey team brought on a new co-author, Greg Welk now at Iowa State University, to emphasize the "state of the art" educational content. This text provides a layout of "concepts" not chapters for a lifestyle of health and fitness.

This brief version of the time-tested Concepts of... books provides the basic information that students need in order to start developing healthy lifestyles through the use of activity labs and logs. The text's proven conceptual format (offering brief "concepts" rather than chapters) presents information in a useful and concise way, and its focus on "process" or lifestyle changes, with early coverage of planning, enables students to apply the concepts immediately. It is one of three Concepts texts now available at the same time, each offering a distinct topical emphasis.
