The Dacia Sandero is a supermini subcompact car produced and engineered jointly by the French manufacturer Renault and its Romanian subsidiary Dacia since Autumn 2007, currently at its second generation. It has been also marketed as the Renault Sandero in certain markets, such as Russia, Egypt, Mexico, Latin America, Sub-Saharan Africa and South America. It was introduced since September 2007 ...

Renault Clio - Wikipedia

A fascinating and candid memoir about successful leadership from the former CEO of General Electric, named one of the " World ' s Best CEOs " three times by Barron ' s, and the hard-won lessons he learned from his experience leading GE immediately after 9/11, through the devastating 2008 –09 financial crisis, and into an increasingly globalized world. In September 2001, Jeff Immelt replaced the most famous CEO in history, Jack Welch, at the helm of General Electric. Less than a week into his tenure, the 9/11 terrorist attacks shook the nation, and the company, to its core. GE was connected to nearly every part of the tragedy—GE-financed planes powered by GE-manufactured engines had just destroyed real estate that was insured by GE-issued policies. Facing an unprecedented situation, Immelt knew his response would set the tone for businesses everywhere that looked to GE—one of America ' s biggest and most-heralded corporations—for direction. No pressure. Over the next sixteen years, Immelt would lead GE through many more dire moments, from the 2008 – 09 Global Financial Crisis to the 2011 meltdown of Fukushima ' s nuclear reactors, which were designed by GE. But Immelt ' s biggest challenge was inherited: Welch had handed over a company that had great people, but was short on innovation. Immelt set out to change GE ' s focus by making it more global, more rooted in technology, and more diverse. But the stock market rarely rewarded his efforts, and GE struggled. In Hot Seat, Immelt offers a rigorous and raw interrogation of himself and his tenure, detailing for the first time his proudest moments and his biggest mistakes. The most crucial component of leadership, he writes, is the willingness to make decisions. But knowing what to do is a thousand times easier than knowing when to do it. Perseverance, combined with clear communication, can ensure progress, if not perfection, he says. That won ' t protect any CEO from second-guessing, but Immelt explains how he ' s pushed through even the most withering criticism: by staying focused on his team and the goals they tried to achieve. As the business world continues to be rocked by stunning economic upheaval, Hot Seat " takes you into the office, head, and heart of the man who became CEO of GE on the eve of 9/11, and then led the iconic behemoth for sixteen fascinating, and often turbulent, years. A handbook on leadership—and life " (Stanley A. McChrystal, General, US Army [Retired], CEO and Founder, McChrystal Group).

Xcode 4 has a brand new user interface, built upon proven technologies that Apple itself uses to build Mac OS X and iOS, and that have produced over a quarter million Mac OS X and iOS apps. This project-based book introduces readers to Apple's development environment. The book is aimed at new Mac OS X and iOS developers and assumes the reader is familiar with programming and object-oriented concepts. The book starts at the basics--how to download, install, and start using Xcode--and moves to a detailed look at building and running applications. The last part of the book covers more advanced topics, such as testing, debugging, and source-code management. With the book's approach, readers will be able to take the projects they build during the book and adapt them for use in their own projects.

Mac OS X - Wikipedia

This text equips students with the essential skills for developing and writing public relations materials, covering all areas including news releases, backgrounders, newsletter and magazine articles, brochures, print advertising copy, and broadcast scripts. Recent technological changes are also covered to give students an understanding of how technology impacts the constantly changing world of public relations. The text continues to stress the need for professionals to communicate more effectively to all audiences.

The Transformational CIO is chock full of stimulating thought leadership and useful knowledge that will help you leverage new and existing technologies to create business value, generate more revenue, increase profits and improve customer relationships in rapidly changing global markets. This book is a practical guide for senior executives seeking optimal returns on technology investments, now and in the future. Hot-button issues and essential topics covered in the book include: Vision and Organization Culture and Change Partnering with the Business The Art and Science of IT Leadership Team Building Cloud Computing Enterprise Collaboration Strategic Sourcing Executive Career Development The Transformational CIO features real-world stories and revealing anecdotes from CIOs and IT thought leaders at leading organizations as Disney, Kimberly-Clark, Kaiser Permanente, Dell, Flextronics, Wipro, Boston Scientific, Salesforce.com, General Motors, Shell Oil, Pitney Bowes, IBM, Cisco, Siemens, Citigroup, Microsoft, CVS Caremark, Frontier Communications and the U.S. Tennis Association. 'SBAs, EMQs & SAQs in MEDICINE' provides a broad range and style of questions, not only for medical students preparing for their final exams, but also for clinicians preparing for their postgraduate exams. This book includes over 200 single best answer questions (SBAs), 400 extended matching questions (EMQs) and 100 short answer questions (SAQs), giving the reader a wide variety of topics to test their exam knowledge and technique. It is an invaluable educational resource for exam preparation and to help you succeed. Key features
• Over 700 questions on the core medical subjects.
• Compiled by a team of junior doctors with recent final exam and postgraduate specialty exam experience.
• Overseen by experienced doctors to ensure relevance and accuracy.
• The broad medical curriculum is covered in a succinct and consistent style.
• Clear and concise answers are provided.
• Easy accessible information to facilitate revision on the move.
• Enables the reader to assess their knowledge and help identify gaps in their knowledge to target revision.
• The following main specialties are covered:
- Cardiology;
- Respiratory medicine;
- Gastroenterology;
- Renal medicine;
- Endocrinology;
- Neurology;
- Haematology;
- Rheumatology;
- Infectious diseases. Watch out for our other titles in the MedQ4exams series:
- Surgery
- The Specialities
- Practice papers

In How to Super Tune and Modify Holley Carburetors, best selling author Vizard explains the science, the function, and most importantly, the tuning expertise required to get your Holley carburetor to perform its best for your performance application.

Old Europe ' s new crisis. Europe, the charming continent of windmills and gondolas. But lately, Europe has become the continent of endless strikes and demonstrations, bombs on the trains and subways, radical Islamic cells in every city, and ghettos so hopeless and violent even the police won ' t enter them. In Spain, a terrorist attack prompts instant capitulation to the terrorists ' demands. In France, the suburbs go up in flames every night. In Holland, politicians and artists are murdered for speaking frankly about Islamic immigration. This isn ' t the Europe we thought we knew. What ' s going on over there? Traveling overland from London to Istanbul, journalist Claire Berlinski shows why the Continent has lately appeared so bewildering—and often so thoroughly obnoxious—to Americans. Speaking to Muslim immigrants, German rock stars, French cops, and Italian women who have better things to do than have children, she finds that Europe is still, despite everything, in the grip of the same old ancient demons. Anyone who knows the history can sense it: There is something ugly—and familiar—in the air. But something new is happening as well. Indeed, Europe now confronts—and seems unable to cope with—an entirely new set of troubles. Tracing the ancient conflicts and newly erupting crises, Menace in Europe reveals:
• Why Islamic radicalism and terrorist indoctrination flourish as Europe fails to assimilate millions of Muslim immigrants
• How plummeting birthrates hurtle Europe toward economic and cultural catastrophe
• Why hatred of America has become ubiquitous—on Europe ' s streets, in its books, newspapers, and music, and at the highest levels of government
• How long-repressed destructive instincts are suddenly reemerging
• How the death of religious faith has created a hopeless, morally unmoored Europe that clings to anti-Americanism, anti-Semitism, and other dangerous ideologies
• Why the notion of a united Europe is a fantasy and what that means for the United States In the end, these are not separate issues. Berlinski provocatively demonstrates that Europe ' s political and cultural crisis mirrors its profound moral and spiritual crisis. But this is not just Europe ' s problem. Menace in Europe makes clear that the spiritual void at the heart of Europe is ultimately our problem too. And America will pay a terrible price if we continue to ignore it.

Author Vizard covers blending the bowls, basic porting procedures, as well as pocket porting, porting the intake runners, and many advanced procedures. Advanced procedures include unshrouding valves and developing the ideal port area and angle.

Demonstrates how games that will run on all Windows 8 devices can be developed using C# and XAML. Covers the whole game development experience from initial setup and game design through to user interface design, coding, and deployment to the Windows Store. Intended for users who are already familiar with programming one of the two main managed Visual Studio languages, C# or Visual Basic.NET.
