Top linguists from diverse fields address language varieties in the South. Language Variety in the South Revisited is a comprehensive collection of new research on southern United States English by foremost scholars of regional language variation. Like its predecessor, Language Variety in the South: Perspectives in Black and White (The University of Alabama Press, 1986), this book includes current research into African American vernacular English, but it greatly expands the scope of investigation and offers an extensive assessment of the field. The volume encompasses studies of contact involving African and European languages; analysis of discourse, pragmatic, lexical, phonological, and syntactic features; and evaluations of methods of collecting and examining data. The 38 essays not only offer a wealth of information about southern language varieties but also serve as models for regional linguistic investigation.

Here, the authors focus on educators who dare to lead their schools, districts, universities, and educational organizations to new possibilities. The leadership practices of the individuals featured contribute significantly to craft knowledge and to the discourse on contemporary issues of educational leadership. These leaders develop collaborative decision-making processes, push the bureaucratic boundaries, claim power through politics, and live and lead from values. The authors contend that the leadership practices depicted reflect a redefinition of leadership that emanates from a constructive postmodern paradigm aimed at social reconstruction. These leaders are redefining leadership by integrating doing and being. This book is a report of the results of a collective qualitative inquiry into the leadership of eighteen impressive women educational leaders from Illinois, representing a diversity of roles, community sizes, institutional types, and racial perspectives. The chapters intertwine personal stories with the scholarship about leadership. No pseudonyms are used. Although several recent books have been published about the experiences of women as leaders, leadership studies have generally not included women or failed to point to women leaders as role models who could, even should, be emulated by leaders of both genders. It is past time to close the gender leadership gap in educational administration. This book will contribute to the ongoing redefinition of leadership and perhaps after reading this book leaders who dare will move themselves and our culture closer to gender inclusive perceptions of what leadership is and who leaders are.

All the contributors to this compilation knew Bion personally and were influenced by his work. They include: Herbert Rosenfeld, Frances Tustin, Andre Green, Donald Meltzer and Hanna Segal. Wilfred R. Bion has taken his place as one of the foremost psychoanalysts of our time, yet it is only within recent years that the impact of his achievements are being felt. His death has stilled his pen and voice but demands a restatement of his view by those who have been most influenced by him. Bion's greatness lay, not only in the odd vertices of his incredible observations, but in the resources of his epistemological vastness, his respect for truth obtained in the disciplined absence of memory and desire, and his paying such scrupulous attention to and interpreting of recombinant constructions he achieved with mental elements their functions, and their transformations. His was the Language of Achievement, which is the tongue begotten by patience. Of note is his introduction of Plato's theory of forms and Kant's categories into psychoanalytic metapsychology, to say nothing of his mathematical, group and religious theories.
