¿ Puede el mundo del arte, con sus razones estéticas universales, declararse al margen de las reglas del régimen patriarcal? ¿ Est á este campo libre de techos de cristal, mansplaining y estereotipos de género? Nada de eso parece corroborarse cuando se atiende a los números del sistema oficial: las mujeres tienen menos premios, menor presencia en las exhibiciones y ocupan, salvo excepciones, lugares subordinados en las historias del arte. Frente a este escenario, un intenso movimiento de transformación está en marcha. De la mano del activismo feminista y de género, a partir de los años setenta del siglo pasado el arte ofreció herramientas para un imaginario liberador y puso al cuerpo femenino como lugar de expresión privilegiado de una subjetividad en disidencia. Feminismo y arte latinoamericano presenta un panorama teórico y cuantitativo de la escena femenina en las artes visuales y se detiene en la intervención de artistas que contribuyeron a construir una imaginación emancipadora en América Latina. Andrea Giunta recorre en estas páginas la emergencia de nuevos temas — la maternidad, el acoso, la prostitución, los cuerpos divergentes — y nuevas formas de representación, que interpelan no sólo las diferencias entre un arte feminista y un arte femenino, sino también las relaciones de poder inscriptas en los modos de ver y mostrar. Este libro cuenta la historia de una revolución en curso y en ella se propone como una intervención activa desde el conocimiento. Si todavía hoy el universo del arte replica, bajo las formas de la exclusión y la invisibilización, las distintas violencias contra las mujeres, restituir el sentido político del feminismo artístico significa reponer un conjunto de nombres en un sistema de poder, sino contribuir a la apertura de una comprensión distinta del mundo.

DIVTheorizes the cultural reactions--particularly those within the world of the visual arts, literature, and social science--to the oppression of dictatorship./div

The Cambridge History of Latin American Women's Literature is an essential resource for anyone interested in the development of women's writing in Latin America. Ambitious in scope, it explores women's literature from ancient indigenous cultures to the beginning of the twenty-first century. Organized chronologically and written by a host of leading scholars, this History offers an array of approaches that contribute to current dialogues about translation, literary genres, oral and written cultures, and the complex relationship between literature and the political sphere. Covering subjects from cronistas in Colonial Latin America and nation-building to femicide and literature of the indigenous elite, this History traces the development of a literary tradition while remaining grounded in contemporary scholarship. The Cambridge History of Latin American Women's Literature will not only engage readers in ongoing debates but also serve as a definitive reference for years to come.

Los estudios interpretativos y el papel de la dimensión cultural han cobrado relevancia en los nuevos debates de las ciencias sociales. En esta obra se analizan las tradiciones de los estudios culturales en las ciencias sociales a partir de miradas diversas.

In 2004 and 2005 TEOR/tica developed a month-by-month conference program that included the participation of renowned historians, intellectuals, scholars, curators and art critics from all over Latin America and the Caribbean. The book is a compilation of 9 lectures given in 2004 on diverse aspects of visual art in Latin America.

In this important book, one of Latin America's foremost critical theorists examines the use and abuse of memory in the wake of the social and political trauma of Pinochet's Chile. Focusing on the period 1990–2015, Nelly Richard denounces the politics and aesthetics of forgetting that have underpinned both the protracted transition out of dictatorship and the denial of justice to its survivors and victims. What are the perils and social costs of a culture of forgetting? What forms do memories of injustice take in newly formed democracies? How might a history of violence and an ethics of reparation be reconciled in post-autocratic societies? In addressing these and other questions, Richard exposes the abuses of the past and the present while also attending to the residues of memory that are manifested in street protests, literature, and the media, and in artistic practices from architecture and urban design to installation and film. While cultural artifacts can be powerful devices for resistance and critique, Richard argues that they can also be complicit in reproducing and collaborating with forms of institutional and political oblivion. Both within Chile and beyond, Richard offers a trenchant critique of how authoritarian regimes and neoliberal states whittle away at memory's critical capacity. At a time of seismic political realignments in Latin America and internationally, Eruptions of Memory makes a powerful case for the ethical, political, and aesthetic value of memory.
