This volume presents state-of-the-art research from a wide area of subjects brought about by the digital convergence of computing, television, telecommunications and the World-Wide Web. It represents a unique snapshot of trends across a wide range of subjects including virtual environments; virtual reality; telepresence; human-computer interface design; interactivity; avatars; and the Internet. Both researchers and practitioners will find it an invaluable source of reference.

Offers a selection of literary essays from the year 2014 which were originally published in American periodicals.

Brief introduction to using Windows 10.

He'll do anything to move the mission forward, no matter the cost— Navy SEAL Caleb Delaude is deadly charming. When he discovers that professor Emmie Caddington's personal connections can help him get the dirty work done, he sets out to win her over. But her quick intelligence and quirky personality sure do start to get under his skin— She may just be the key to his salvation— Emmie's smart and independent and isn't looking for a brawny guy to take over her life. But this rugged Navy SEAL, who seems so determined to get close to her, hides a fierce intelligence and deep sensitivity. When plans go wrong and a child's life is on the line, Emmie learns what it means to be a SEAL in action, and Caleb discovers that even a hero can get hurt sometimes— PRAISE FOR MARY MARGRET DAUGHTRIDGE: "A wonderful story that will have readers experiencing a whirlwind of emotions and that culminates with an awesome scene that will have your pulse pounding." Romance Junkies " ... [D]elivers in a huge way... A heart-touching story that will keep you smiling and cheering for the characters clear through to the happy ending." The Romantic Times, 4.5/5 Stars "Sealed with a Kiss astounded me with it's sensitivity." Romance Reviews Today "A beautifully written and often poignant contemporary romance. Mary Margret Daughtridge is a compelling new voice whose gift for storytelling makes her an author to watch." Book Loons "Greatly touching and heartwarming, a cozy read for a rainy day. I can't wait to read the next SEALs romance!" Revisiting the Moon's Library "What an incredibly powerful book! I laughed and sniffled, was turned on and turned inside out." Queue My Review

"...an absurdly motivating book." —A.J. Jacobs, New York Times bestselling author Don't get stuck on a career path you have no passion for. Don't waste your intelligence on something that doesn't really mean anything more to you than a paycheck. Let Isaiah Hankel help you define a focus so powerful that everything in your life will be pulled towards it. Create your purpose and change your life. Be focused. Be fulfilled. Be successful. Black Hole Focus has been endorsed by top names in business, entrepreneurship, and academia, including 4 times New York Times bestseller AJ Jacobs and Harvard Medical School Postdoc Director Dr. Jim Gould. The book is broken up into 3 different sections; the first section shows you why you need a purpose in life, the second section shows you how to find your new purpose, and the third section shows you how to achieve your goals when facing adversity. In this book, you will learn: How to understand what you really want in life and how to get it Why people with a powerful purpose live to 100 How to rapidly improve focus and change your life using the secret techniques of an international memory champion How people like Jim Carrey, Oprah Winfrey, and J.K. Rowling transformed pain into purpose How to start a business by avoiding willpower depletion and the life hack lie Black Hole Focus includes exclusive case studies from medical practitioners, research scientists, lawyers, corporate executives and small business owners who have used the techniques described in this book to achieve massive success in their own lives. About the Author: Dr. Hankel is an internationally recognized expert in the biotechnology industry and prolific public speaker. He's given over 250 seminars in 22 different countries while working with many of the world's most respected companies and institutions, including Harvard University, Oxford University, Roche Pharmaceuticals, Eli Lilly & Company, Baxter International and Pfizer. Dr. Hankel uses the science of purpose and the principles of entrepreneurship to help people achieve their biggest goals.

Digital equipment in all dental practices is commonplace. From digital imaging through electronic recordkeeping, general dentists and specialists are seeing more accurate diagnoses, faster treatment times, and lower costs for equipment. Here in one volume is a comprehensive look at the digital technology available, describing indications, contraindications, advantages, disadvantages, limitations, and applications in the various dental fields. Included are digital imaging, digital impressions, digital operative dentistry, digital prosthodontics, digital implant fabrication and placement, and digital applications in endodontics, orthodontics, and oral surgery. The book is ideal for dental students seeking a reference for digital dental technology and for seasoned practitioners and specialists interested in incorporating digital technology in their daily practice.

Although the computer's life has been relatively short, it has brought about an information revolution that is transforming our world on a scale that is still difficult to comprehend. This digital convergence is shaping society, technology and the media for the next millennium. Areas as diverse as home banking and shopping over the Internet; WWW access over mobile phone networks; and television systems such as Web TV which combine on-line services with television. But convergence is not just about technology. It is also about services and new ways of doing business and of interacting with society. Digital convergence heralds the 'Information Revolution'. Edited by John Vince and Rae Earnshaw this important new book on Digital Convergence: The Information Revolution is an edited volume of papers, bringing together state-of-the-art developments in the Internet and World Wide Web and should be compulsory reading for all those interested in and working in those areas.
