Economic indicators explains the meaning and application of the full range of economic indicators. The main sources of data on each indicator are provided and the meaning, interpretation and use of the indicators are explained in detail.

For over 40 years, Warship has been the leading annual resource on the design, development, and deployment of the world's combat ships. Featuring a broad range of articles from a select panel of distinguished international contributors, this latest volume combines original research, new book reviews, warship notes, an image gallery, and much more, maintaining the impressive standards of scholarship and research with which Warship has become synonymous. In the 2019 edition of this celebrated title, articles include Hans Lengerer's exploration of the genesis of the Six-Six Fleet, Michele Cosentino's look at Project 1030, Italy's attempt to create a torpedo-armed attack and ballistic missile submarines, and A D Baker III's drawing feature on the USS Lebanon. Detailed and accurate information is the keynote of all the articles, which are fully supported by plans, data tables and stunning photographs.

This handbook unifies access and opportunity, two key concepts of sociology of education, throughout its 25 chapters. It explores today ' s populations rarely noticed, such as undocumented students, first generation college students, and LGBTQs; and emphasizing the intersectionality of gender, race, ethnicity and social class. Sociologists often center their work on the sources and consequences of inequality. This handbook, while reviewing many of these explanations, takes a different approach, concentrating instead on what needs to be accomplished to reduce inequality. A special section is devoted to new methodological work for studying social systems, including network analyses and school and teacher effects. Additionally, the book explores the changing landscape of higher education institutions, their respective populations, and how labor market opportunities are enhanced or impeded by differing postsecondary education pathways. Written by leading sociologists and rising stars in the field, each of the chapters is embedded in theory, but contemporary and futuristic in its implications. This Handbook serves as a blueprint for identifying new work for sociologists of education and other scholars and policymakers trying to understand many of the problems of inequality in education and what is needed to address them.

The research-based Test of Basic Arithmetic and Numeracy Skills measures children's fluency in number skills - a core aim of the 2014 National Curriculum. Made up of 8 easy-to-use tests for the different aspects of numeracy, and offering standardised age-related scores, the TOBANS is an accurate and highly reliable assessment tool for ages 7-11.

Davie Jones—an ugly duckling growing up in small-town Mississippi with a mother who couldn't get any meaner—is positive her life couldn't be any worse. Just when she's resigned herself to her fate, she sees a movie that will change her life—Sixteen Candles. But in her case, life doesn't imitate art. Tormented in school and hopelessly in unrequited love with a handsome football player, Davie finds it bittersweet to dream of Molly Ringwald endings. When a cruel school prank goes too far, Davie leaves the life she knows and reinvents herself in the glittery world of Hollywood—as a beautiful and successful lounge singer. Just as she's about to ride off into the L.A. sunset, the past comes back with a vengeance, threatening to crush Davie's dreams—and break her heart again. With wholly original characters and a cinematic storyline, 32 Candles introduces Ernessa T. Carter, a new voice in fiction with smarts, attitude, and sassiness to spare.

Ectomycorrhizal symbiosis plays a major role in biodiversity and stability of ecosystems in tropical forests. It is a research imperative in tropical and neotropical forest ecosystems because they contain ecologically and economically important tree species. This book provides an overview of the knowledge of ECM symbioses in tropical and neotropical ecosystem forests. The contents address diversity and function of ectomycorrhiza associated with forest plants, impacts of ectomycorrhiza on plant diversity and composition, regeneration and dynamics of ecosystems, biomass production in forestry, and adaptation of ectomycorrhiza.

With World Wide Web integration and interactivity, extraordinary visual drawings and photographs, unprecedented currency, and unique lecture presentation materials, this book will make your introductory computer course for teachers exciting and dynamicâ€ " an experience your students will remember as a highlight of their educational careers!

Dracula and Frankenstein ' s Monster are horror cinema icons, and the actors most deeply associated with the two roles also shared a unique friendship. Bela Lugosi and Boris Karloff starred in dozens of black-and-white horror films, and over the years managed to collaborate on and co-star in eight movies. Through dozens of interviews and extensive archival research, this greatly expanded new edition examines the Golden Age of Hollywood, the era in which both stars worked, recreates the shooting of Lugosi and Karloff ' s mutual films, examines their odd and moving personal relationship and analyzes their ongoing legacies. Features include a fully detailed filmography of the eight Karloff and Lugosi films, full summaries of both men ' s careers and more than 250 photographs, some in color.

Bringing together fourteen papers, this book gives new depth to our understanding of the aims and achievements of Swami Vivekananda. It invites us to relate him to movements and individuals outside his native Bengal; it shows how modernizing trends in Indian society wrestled with traditionalfeatures of Hinduism such as caste; and it links his religious and social ideals to thinkers and theologians in the West. The book firmly distances Swami Vivekananda from chauvinist or communal misinterpretations of his work.

This clear and highly accessible descriptive grammar of English has a strong semantic and discourse/functional focus. It explains the basics of English syntax while providing readers with a comprehensive view of the richness and complexity of the system. Each structure is discussed in terms of its syntactic features, its meaning, and its uses in discourse.
