This is a completely revised book in line with " Outcome Based Education (OBE) " that is currently being followed by most universities. Also, the engineering drawings in the book have been prepared using the latest version of AutoCAD.

Engineering Graphics, in its 13th year, has been succinctly revised for the Engineering students of 1st year of Gujarat Technological University, AhmedabadBeginning with the units, dimensions and standard, this book discusses the measurement and measurement errors. Then, it goes on to discuss electronics equipment,measurements of low resistance and A.C. bridges. Moreover,the book deals with the cathode ray oscilloscopes.Further,it describes various instrument calibration. Finally,the book deals with recorders and plotters.

This book provides a comprehensive overview of this multi-disciplinary subject, which has interaction with other disciplines, such as mineralogy, petrology, structural geology, hydrogeology, seismic engineering, rock engineering, soil mechanics, geophysics, remote sensing (RS-GIS-GPS), environmental geology, etc.

The book strictly complies with the new syllabus of Gujrat Technological University, Ahmedabad, for B.E. First year of all braches of Engineering. The subject matter is presented in a graded stepwise, easytofollow style. Each chapter includes MultipleChoice Questions,Review Questions and Exercises for easy recapitulation.

Engineering Physics has been specifically designed and written to meet the requirements of the engineering students of GTU. All the topics and sub-topics are neatly arranged for the students. A number of assignment problems, along with questions and answers, have also been provided. MCQs for the bridge course have been designed in such a way that the students can recollect every concept that they have read and apply easily during the examination. KEY FEATURES • Detailed discussion of every topic from elementary to comprehensive level with several worked-out examples • A section on practicals • Solved Question Papers- Dec 2013 and June 2014 • As per the syllabus for 2013-14

this book includes Geometrical Drawing & Computer Aided Drafting in First Angle Projection. Useful for the students of B.E./B.Tech for different Technological Universities of India. Covers all the topics of engineering drawing with simple explanation.

This publication deals with the language of engineers, i.e., Engineering Graphics. It is based on the syllabus of Gujarat Technological University and also useful for the students of other Indian Universities and the Technical Examination Boards of Various States. In this revised edition, a new section, " Additional Problems " is given at last
