multifamily houses. Non-residential structures of similar sizes, loads, and construction can also be considered by interpreting the data and procedures found in this manual, as can retrofitting of existing structures.

Emergency Medical Services (EMS) agencies regardless of service delivery model have sought guidance on how to better integrate their emergency preparedness and response activities into similar processes occurring at the local, regional, State, tribal, and Federal levels. This primary purpose of this project is to begin the process of providing that guidance as it relates to mass care incident deployment.

FEMA 259 2nd Edition/June 2001.

This two-in one resource includes the Tactical Commanders and Staff Toolkit plus the Liaison Officer Toolkit. Defense Support of Civil Authorities (DSCA) enables tactical level Commanders and their Staffs to properly plan and execute assigned DSCA missions for all hazard operations, excluding Chemical, Biological, Radiological, Nuclear, high yield Explosives (CBRNE) or acts of terrorism. Applies to all United States military forces, including Department of Defense (DOD) components (Active and Reserve forces and National Guard when in Federal Status). This hand-on resource also may be useful information for local and state first responders. Chapter 1 contains background information relative to Defense Support of Civil Authorities (DSCA) including legal, doctrinal, and policy issues. Chapter 2 provides an overview of the incident management processes including National Response Framework (NRF), National Incident Management Systems (NIMS), and Incident Command System (ICS) as well as Department of Homeland Security (DHS). Chapter 3 discusses the civilian and military responses to natural disaster. Chapter 4 provides a brief overview of Joint Operation Planning Process and mission analysis. Chapter 5 covers Defense Support of Civilian Authorities (DSCA) planning factors for response to all hazard events. Chapter 6 is review of safety and operational composite risk management processes Chapters 7-11 contain Concepts of Operation (CONOPS) and details five natural hazards/disasters and the pertinent planning factors for each within the scope of DSCA.

These standards have been prepared to promote uniformity in the appraisal of real property among the various agencies acquiring property on behalf of the U.S., by both direct purchase & condemnation. Contents: standards for approaching the solution to certain recurring appraisal problems (cost approach, income approach, highest & best use, etc.); data documentation & appraisal reporting

standards (zoning & other land use regulations, contents of appraisal report, etc.); general standards of a miscellaneous nature (impartiality, witness composure, leasehold takings, etc.). Cases & statutes.

The National Wildfire Coordinating Group provides national leadership to enable interoperable wildland fire operations among federal, state, local, tribal, and territorial partners. Primary objectives include: Establish national interagency wildland fire operations standards; Recognize that the decision to adopt standards is made independently by the NWCG members and communicated through their respective directives systems; Establish wildland fire position standards, qualifications requirements, and performance support capabilities (e.g. training courses, job aids) that enable implementation of NWCG standards; Support the National Cohesive Wildland Fire Management Strategy goals: to restore and maintain resilient landscapes; create fire adapted communities; and respond to wildfires safely and effectively; Establish information technology (IT) capability requirements for wildland fire; and Ensure that all NWCG activities contribute to safe, effective, and coordinated national interagency wildland fire operations. The "NWCG Standards for Interagency Incident Business Management" assists participating agencies of the NWCG to constructively work together to provide effective execution of each agency's incident business management program by establishing procedures for: - Uniform application of regulations on the use of human resources, including classification, payroll, commissary, injury compensation, and travel. - Acquisition of necessary equipment and supplies from appropriate sources in accordance with applicable procurement regulations. - Management and tracking of government property. - Financial coordination with the jurisdictional agency and maintenance of finance, property, procurement, and personnel records, and forms. - Use and coordination of incident business management functions as they relate to sharing of resources among federal, state, and local agencies, including the military. - Documentation and reporting of claims. - Documentation of costs and cost management practices. - Administrative processes for all-hazards incidents.
