In the summer of 1856, three companies of handcarts were outfitted and sent west from Iowa to the Valley of the Great Salt Lake. All went well, and they arrived without undue incident. But two additional companies - one captained by James G. Willie, and the other by Edward Martin - left England late in the season. When they arrived at Iowa City, they were long past the time for safe departure across the plains. By the time they left Florence, Nebraska, with still more than a thousand miles to go, it was near the end of August. As if that were not serious enough, President Brigham Young thought that the arrival of the third company ended the migration for that season and ordered the resupply wagons back to Salt Lake. halfling king vanquished a relentless evil. Two thousand years later, the evil has returned, better prepared and hungering for vengeance. When the legacy falls to the twins Willoe and Rowyn, sixteen-year-old descendants of the mythical king, they struggle with the truth they discover behind the Covenant's deadly cost. With the aid of their cousins Aeron and Casandra, the twins must learn to wield the power of the Covenant's Fire to defeat the minions of the great evil, even though success may require the greatest of sacrifices. In a story with a host of characters and multiple story lines, 'Fire of the Covenant' begins an epic adventure of self-discovery, the passion of love and sacrifice, and the eternal struggle between light and darkness.

fire in powerful ways to deliver His message. His authority became apparent when He brought or sent fire down. A few excellent illustrations include Elijah and the prophets of Baal, the three young men in the fiery furnace, Sodom and Gomorrah, and Moses at the burning bush and the tongues of fire on the day of Pentecost. Gordon Christensen and Geneva Noren were born in different parts of the country and into different hard times. Gordon grew up in the south end of Seattle in the 1920s, where his family faced many struggles in the "New Land" to which they had moved after World War I. Geneva was raised on a small farm in Dust Bowl Kansas where faith in God was the family's greatest hope. "I am putting my words as a fire in your mouth; these people are tinder and it will consume them." (Jeremiah 5:14) In the book of Jeremiah, not only is the vocabulary of "word" and "words" uniquely prevalent, but formulae marking divine speech also play an unprecedented role in giving the book's final form its narrative and theological shape. Indeed, "the word of the Lord" is arguably the main character, and a theology that is both distinctive and powerful can be seen to emerge from the unfolding narrative. In this

stimulating study, Andrew Shead examines Jeremiah's use of word language; the prophet's formation as an embodiment of the word of God; his covenant preaching and the crisis it precipitates concerning the recognition of true prophecy; and, in the "oracles of hope," how the power of the word of God is finally made manifest. Shead then brings this reading of Jeremiah to bear on some issues in contemporary theology, including the problem of divine agency and the doctrine of Scripture, and concludes by engaging Jeremiah's doctrine of the Word of God in conversation with Karl Barth. The prophet's major contribution emerges from his careful differentiation of "word" and "words."
