What does unschooling look like day-to-day? Want to help it take root and blossom in your family? There are a number of characteristics that allow learning to flourish, and in Free to Live I discuss the four that have had the most positive impact on our unschooling lifestyle. Understanding why these characteristics are so helpful makes it easier for parents to choose to respond in ways that support unschooling, rather than undermine it. Learning freely, living joyfully.

Humans are born to explore and engage with the world. So why are we so determined to get in our children's way? When we leave the traditional education system behind we can choose to create a loving and supportive atmosphere that allows unschooling to take root and blossom in our home. That means strong and connected relationships where trust and respect run deep—both ways. What a relief it would be to be set free from all that plagues us -- the inner struggle with anger, or contempt, the habitual sins. Is such an experience possible? John Eldredge believes it is, and in FREE TO LIVE, he shows readers how they can be that free, though the healing work of Christ in their lives. It begins when we discover what the salvation of Jesus Christ means for our own restoration and find that holiness is an expression of the healing of our humanity. Here is a book that explores the beauty of the genuine goodness available to us in Jesus Christ, and guides the reader through the process whereby God makes us whole and holy by his love. Readers will be relieved. Utterly.

Do you feel like you struggle to make time for everything? We are living in a time-poor society, working more than ever and with less time for ourselves and family. The pressures and stress of the obligations we feel we have, often leave us without time to do everything that we would like to. More critically, we lack the time to reflect, review our lives and consider our direction. Time to contemplate if the decisions we are making are going to lead us to a life of purpose or an old age filled with regret. Time for Anything is based on 5 years of research by Craig D Robinson. Using the techniques in this book, Craig went from working in an entry level position to, in just four years: start 2 companies, recharge with 12 weeks holiday a year, start a family, grow and sell his startups and retire at the age of 34. This book shows you how you too can have time for it all.

Most of us are overwhelmed by stuff that is not essential to our lives and is out of alignment with our true spiritual nature. Although our souls are inherently free, we also have an ego mind that orients us toward fear, scarcity, self-preservation, and holding on. With the ego mind in the driver's seat of our lives, we accumulate clutter. Physical clutter is the most obvious, but we are also burdened with mental, emotional, energetic, and relationship clutter. All forms of clutter reflect the same thing; a soul not being true to itself. Release: Create a Clutter Free and Soul Driven Life provides practical strategies to release clutter in your inner and outer environments and create a more soul-directed life. It introduces the skills of presence, mindfulness, resonance, and inspired action to put you on the road to freedom; free to live with only the things that help you share your love with the world in your unique ways.

If you aren't happy with your current job or career, keep reading, cuz' you too, can make a living doing something you not only like doing, but are extremely passionate about as well. Live Your Life - A Step By Step Workbook to Live Your Life Doing Things You Love Was Designed to Solve the Most Common Challenges that anybody in this world Is Dealing With. Any of these sound familiar? "With all of the interests I have, will I be working on the right one?" "Will doing work I love still be able to support me and my family?" "I'm afraid I'll feel like a fraud. I don't have an expertise people will pay me for." "Am I too old?" "I have no idea how to start out in this." "The burden of expectations from family and society is simply unbearable." "No time! Too many priorities. Kids, family, work - it's endless." If this sounds familiar, don't worry - you're not alone. Our community's sole purpose is to help you get from where you are now, to doing work that actually excites you! Here's the real question... When you're 80 years old, will you regret not taking the road less traveled and seeing what could have been possible? Your other options? You could hire a career coach to help you through the process, spending \$100+/hr and up to \$1,000+ per month... You could read dozens of books and take a boatload of self-assessments, wasting precious time and \$500-\$1000+... You could even do a weekend career change workshop and spend \$500-\$2500+ for just a few days! While these may and probably would help, they're crazy expensive! OR You could purchase this Work Book and do the exercises for little to minimal investment. Whats the Worst that could have happen? If your life don't change after doing all the exercises? Throw this book away and move on with your pitiful life. But If you are desperate for CHANGE, Put in Some Effort and I guarantee You WILL CHANGE! So What specifically will I learn from doing this workbook? The work book presents a framework to help you accomplish two core goals: 1. To discover your career and personal passions, strengths and talents 2. To build those talents and passions into a career or business that makes you come alive Do I have to become an entrepreneur? Nope. Living Your Life Workbook isn't only for people who want to start their own business. It's about finding and doing work that leverages your strengths, passions and who you are as a person, so you can start doing work that matters to you and to the world. Whatever that is, that's for you to decide, and our workbook is built to help make those decisions much more obvious. I can't just quit my job and start over. Is that what you're going to tell me to do? Not at all. If you look around, pretty much everyone has financial, personal and family obligations. The key is to find what excites you and begin to build a career around it long before you ever have to actually quit. That way there is a ton less risk and potential panic. Our goal is for you to make a transition that gives you the best chance at making your impact on the world. We've also seen a lot of those who did our exercises who find ways to apply their newly discovered strengths to their current job, which leads to a whole new level of fulfillment and excitement, so they never even need to quit. It's pretty fun to see what's

possible once you start making these discoveries! Do yourself a favor and get a copy for yourself or for someone you knows who needs this Now!
