""The report is essential reading for policy makers, government workers, and academics pursuing the goal of equitable, sustainable development across the world."" - N. R. Narayana Murthy, Chairman and Chief Mentor Infosys Technologies Ltd. Information and communication technology (ICT) is rapidly evolving, changing rich and poor societies alike. It has become a powerful tool for participating in the global economy and for offering new opportunities for development efforts. ICT can and should advance economic growth and reduce poverty in developing countries. It has been 20 years since the first telephone operator was privatized, a little over 10 since the World Wide Web emerged, and 5 since the telecommunications bubble burst. How have the ICT sector and its role in development evolved? What have we learned? How can we move forward? Information and Communications for Development 2006: Global Trends and Policies contains lessons from both developed and developing countries. It examines the roles of the public and private sectors, identifying the challenges and the benefits of adopting and expanding ICT use. The report assesses topics essential to building an information society, including investment, access, diffusion, and country policies and strategies. Assessing what has worked, what hasn't, and why, this report is an invaluable guide for understanding how to capture the benefits of ICT around the world."

Thirty years after completing his military service, Ziya flees the spiraling turmoil and perplexing chaos of the city where he lives to seek a peaceful existence in a remote village--of which he has heard dreamlike tales. Greeted by his old friend from the army, Kenan, who has built and furnished a vineyard house for him, Ziya grows accustomed to his new surroundings and is welcomed by Kenan's family. However, the village does not provide the serenity Ziya yearns for, and old memories of his military service on the treacherous Syrian/Turkish border flood his thoughts. As he battles specters of the past, his rejection of village life provokes an undercurrent of ill feeling among the locals, not least towards Kenan, who has incurred heavy debts by his generosity to the man who may have saved his life. Toptas masterfully blurs the borders between dreams and reality, truth and memory in this gripping tale. Like Turkey itself, the writer sits between the traditions of the East and the West, creating bold new literature. In his own country he sits comfortably on the shelf beside Orhan Pamuk, and his first novel in English is poised to enchant those same readers.

"...one fine day, Marga vanished the same as she had appeared: unexpectedly.Of course, Marga was an extraterrestrial creature and had arrived from a faraway planet. She used to feed through her skin. The nutritive substances were hidden in cosmetic creams. That's why she had no smell."

New Venice, an Arctic city, seems calm on the outside but a revolt is brewing, as there are tensions between the Eskimos and the city's Subtle Army, while the secret police, the Gentlemen of the Night, suspect that a prominent citizen, Brentford Orsini, has written a rebellious pamphlet.

Ford Madox Ford is a major figure of the modernist age, yet many of his works do not fulfil the expectations associated with the category of modernism. In Ford Madox Ford and the Misfit Moderns, the author examines the ways in which Ford, alongside other 'misfit moderns' (Richard Aldington, Arnold Bennett, Joseph Conrad, Robert Graves, Siegfried Sassoon, H. G. Wells, and Rebecca West), destabilises the fundamental structures and forces that shape all narratives, from the processes of characterisation and plotting to the distinction between autobiography and fiction. In so doing, Ford exhibits a form of 'in-betweenness' that constitutes an exemplary responsiveness to the conditions of modernity whilst challenging many of our assumptions about early twentieth-century writing. Offering original readings of Ford's Edwardian fiction and First World War writing, this book poses wide-ranging questions about the nature of narrative and the distinction between modernism and modernity. -- Book cover.

A fun, romantic read, perfect for fans of Sarah Dessen and Susane Colasanti! What happens when Matt and Ella reunite one year after their breakup? Are second chances really possible? Before Matt, Ella had a plan. Get over her ex-boyfriend and graduate high school—simple as that. But Matt—the cute, shy, bespectacled bass player—was never part of that plan. And neither was attending a party that was crashed by the cops just minutes after they arrived. Or spending an entire night saying "yes" to every crazy, fun thing they could think of. But then Matt leaves town, breaking Ella's heart. And when he shows up a year later—wanting to relive the night that brought them together—Ella isn't sure whether Matt's worth a second chance. Or if re-creating the past can help them create a different future.
