Describes the time in America prior to the first World War, the vast differences between the wealthy and the poor, the changing from farming to factory work, and the inventions of conveniences such as electric lights, telephones, and bicycles.

An eminent political scientist's brilliant analysis of economic, social, and political trends over the past century demonstrating how we have gone from an individualistic "I" society to a more communitarian "We" society and then back again, and how we can learn from that experience to become a stronger, more unified nation—from the author of *Bowling Alone* and *Our Kids*. Deep and accelerating inequality; unprecedented political polarization; vitriolic public discourse; a fraying social fabric; public and private narcissism—Americans today seem to agree on only one thing: This is the worst of times. But we've been here before. During the Gilded Age of the late 1800s, America was highly individualistic, starkly unequal, fiercely polarized, and deeply fragmented, just as it is today. However as the twentieth century opened, America became—slowly, unevenly, but steadily—more egalitarian, more cooperative, more generous; a society on the upswing, more focused on our responsibilities to one another and less focused on our narrower self-interest. Sometime during the 1960s, however, these trends reversed, leaving us in today's disarray. In a sweeping overview of more than a century of history, drawing on his inimitable combination of statistical analysis and storytelling, Robert Putnam analyzes a remarkable confluence of trends that brought us from an "I" society to a "We" society and then back again. He draws inspiring lessons for our time from an earlier era, when a dedicated group of reformers righted the ship, putting us on a path to becoming a society once again based on community. Engaging, revelatory, and timely, this is Putnam's most ambitious work yet, a fitting capstone to a brilliant career.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

The Collins College Outline for United States History from 1865 follows the key moments and players in American history from the Civil War Reconstruction period to the record high gas prices and low presidential poll numbers of 2006, with information on politics, disasters, crimes and scandals, social issues, pop culture, and more. This guide also contains appendixes on the territorial expansion and admission of states into the Union, the population of the United States, and a timeline of presidents and secretaries of state. Completely revised and updated by Dr. John Baick, this book includes a test yourself section with answers and complete explanations at the end of each chapter. Also included are bibliographies for further reading, as well as numerous vocabulary lists, exercises, and examples. The Collins College Outlines are a completely revised, in-depth series of study guides for all areas of study, including the Humanities, Social Sciences, Mathematics, Science, Language, History, and Business. Featuring the most up-to-date information, each book is written by a seasoned professor in the field and focuses on a simplified and general overview of the subject for college students and, where appropriate, Advanced Placement students. Each Collins College Outline is fully integrated with the major curriculum for its subject and is a perfect supplement for any standard textbook.

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass*  
The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their

own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The *Yawp* highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, *The American Yawp* incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. *The American Yawp* traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, *The American Yawp* gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

Covers major figures and events in the United States from 1877 to 1917. Includes Gilded Age politics, industrialization and big business, railroad expansion, the labor movement, Gilded Age society, the American West, populism, the Spanish-American War, Theodore Roosevelt, progressivism and Big Stick diplomacy, and Woodrow Wilson. History SparkNotes help students strengthen their grasp of History by focusing on individual eras or episodes in U.S. or world history. Breaking history up into digestible lessons, History SparkNotes make it easier for students to see how events, figures, movements, and trends interrelate. History SparkNotes are a perfect for high school and college history classes, for students studying for History AP Test or SAT Subject Tests, and simply as general reference tools. Each note contains a general overview of historical context, a concise summary of events, lists of key people and terms, in-depth summary and analysis with timelines, study questions and suggested essay topics, and a 50-question review quiz.

Essential Review Three full-length practice tests with detailed answer explanations A full-length diagnostic test identifies areas for score improvement so you can personalize your prep Focused chapter summaries, highlights, and quizzes End-of-chapter quizzes for additional practice Proven score-raising strategies teach you how to tackle the test efficiently Expert Guidance We know the test: Our Learning Engineers have put tens of thousands of hours into studying the SAT — using real data to design the most effective strategies and study plans. Kaplan's expert psychometricians make sure our practice questions and study materials are true to the test. We invented test prep—Kaplan ([www.kaptest.com](http://www.kaptest.com)) has been helping students for almost 80 years, and more than 95% of our students get into their top-choice schools. Our proven strategies have helped legions of students achieve their dreams.

Narrated by a longtime New York City ward boss, this volume reveals the successful application of corrupt practices such as patronage-based appointments and the exercise of power for personal gain.

In the essay, Carnegie argues that the accumulation of wealth is beneficial to society and the government should take no action to impede it. He wrote, "The man who dies rich dies disgraced." and practiced what he preached and spent his last years giving away his vast fortune.
