The testimonies of these two young women are joined by a third: Aunt Lydia. Her complex past and uncertain future unfold in surprising and pivotal ways. With The Testaments, Margaret Atwood opens up the innermost workings of Gilead, as each woman is forced to come to terms with who she is, and how far she will go for what she believes.

She may leave the home of the Commander and his wife once a day to walk to food markets whose signs are now pictures instead of words because women are no longer allowed to read. She must lie on her back once a month and pray that the Commander makes her pregnant, because in an age of declining births, Offred and the other Handmaids are valued only if their ovaries are viable. Offred can remember the days before, when she lived and made love with her husband Luke; when she played with and protected her daughter; when she had a job, money of her own, and access to knowledge. But all of that is gone now.... Funny, unexpected, horrifying, and altogether convincing, The Handmaid's Tale is at once scathing satire, dire warning, and auditerary tour de force.

This bilingual collection devoted to Canadian writer Margaret Atwood, one of the best-known figures in the field of English language literature, contains the address that she pronounced in Rennes in November 1998 on her novel The Handmaid's Tale - one of the greatest literary successes of the 80's in the United States, Canada, and Great Britain - as well as on the genre to which it belongs. Whether it be a utopia, dystopia, satire, or else speculative fiction, the text with its terrifying scenario belongs to the postmodernist movement. This volume brings together studies of the novel that were presented in December 1998 at the Margaret Atwood Conference organised by die Centre d'Études Canadiennes de Rennes. The authors analyse the work from different perspectives - they explore the relationship between literature and society, politics and poetics, communication and community, and they study the strategies of resistance and displacement set up by the writer.

Seminar paper from the year 2007 in the subject English Language and Literature Studies - Literature, grade: 1.3, University of Constance (Literaturwissenschaften), course: Margaret Atwood's Later Fiction, language: English, abstract: Margaret Atwood's novels The Handmaid's Tale (T.H.T., 1985) and Oryx and Crake (O. & C., 2003) are works of speculative fiction that are set in the near future. Both of the depicted scenarios take place in the U.S.A. and could be classified as "survivor's stories" as they are told from the perspective of a person that survived the new system or the catastrophe the books deal with. T.H.T. takes the reader into an oppressive system that has become reality in the year 2005. In this system women are divided into different kinds of "functional groups" according to their abilities. The story is told by the handmaid Offred who - as all handmaids - is still believed to be fertile. Thus she is solely good for childbearing and has not got any choice. This system however is confined to the United States so that there is still hope for an escape to a better life for the people living under the system. The scenario in O. & C. on the other hand occurs around the year 2025 and depicts a world wide catastrophe where Snowman - the narrator of the story - is one of the few surviving human beings. This paper will compare the two novels according to some points of analysis. I had to confine myself to a few themes as it is impossible to include all topics that could be of importance. To start with, I will take a look at the social and political background of the time the novels were written in, followed by a generic analysis of the works. Secondly I will answer the question about the inspiration for these novels and I will deal with the epilogues Atwood added to her books. This will be followed by a chapter about the main topics of the novels which are reproduction, religion and sexuality. Last but not least I will compare the main characters and discus
