presentations, and a wide range of concept-development questions and exercises. Application - Reinforce and apply key concepts with hands-on laboratory work, critical thinking, and problem solving.

Containing 52 tested and verified chemistry lab experiments, Laboratory Manual follows the chapter sequence and reinforces the concepts taught in Glencoe Chemistry: Matter and Change, but can be used with any chemistry text. Students record data and conclusions directly on lab worksheets; safety, chemical storage, and disposal guidelines are included.

2000-2005 State Textbook Adoption - Rowan/Salisbury.

This reference is a must for students who need extra help, reteaching, or extra practice. The guide moves students through the same concepts as the text, but at a slower pace. More descriptive detail, along with visual algorithms, provides a more structured approach. Each chapter closes with a large bank of practice problems. Book jacket.
