Students. Re-

organised into  
discrete 'topics',

the text is more

students. Now in its

the text has been  
enhanced with

additional learning

features and maths

support to

demonstrate the absolute centrality of mathematics to physical chemistry. Increasing the digestibility of the text in this new approach, the reader is brought to a question, then the math is used to show how it can be answered and progress made.

The expanded and redistributed maths support also includes new 'Chemist's toolkits' which provide students with succinct reminders of mathematical concepts and techniques right where they need them. Checklists of key concepts at the
