Industrial Revolution, yet
as to be almost invisible, yet
understanding its history is key to
understanding the origins of modern
capitalism. Sven Beckert's rich,
fascinating book tells the story of how, in
a remarkably brief period, European
entrepreneurs and powerful statesmen
recast the world's most significant

expropriation of lands in the Americas and the enslavement of African workers to crucially reshape the disparate realms of cotton that had existed for millennia, and how industrial capitalism gave birth to an empire, and how this force transformed the world. The empire of cotton was, from the beginning, a fulcrum of constant

global struggle between slaves and
planters, merchants and statesmen,
workers and factory owners. Beckert
makes clear how these forces ushered in
the world of modern capitalism, including
the vast wealth and disturbing inequalities
that are with us today. The result is a book
as unsettling as it is enlightening: a book

This book investigates the overlap of memory and the impacts of industrialization within today's communities and the senses of place and heritage that grew alongside and in reaction to the growth of mines, mills, and

factories. The economic and social change that accompanied the unchecked accumulation of wealth and exploitation of labor as the industrial revolution spread throughout the world has numerous lasting impacts on the socioeconomics of today. Likewise, the planet itself is now reeling. The memory and heritage of these

processes reach into the communities that owe the industrial revolution their existence, but these populations also often suffered adverse impacts to their health and environment through the large-scale and rapid extraction of natural resources and production of goods. Through the themes of memory, community, and place;
