newly revised hour-by-hour, week-by-week guide. One of Great Britain's top parenting experts, she draws on more than twenty years of experience researching and studying the natural sleep rhythms and feeding patterns of babies to ease the stresses and worries of new parents. In this new edition, you'll find everything you need to know to get your newborn to sleep through the night. In addition to advice on sleep training, Ford shares her expertise on feeding schedules, colic, crying, teething, illness, pacifiers, separation anxiety, and setting up the perfect nursery. With this easy-to-follow

The Future of Nursing explores how nurses' roles, responsibilities, and education should change significantly to meet the increased demand for care that will be created by health care reform and to advance improvements in America's increasingly complex health system. At more than 3 million in number, nurses make up the single largest segment of the health care work force. They also spend the greatest amount of time in

delivering patient care as a profession. Nurses therefore have valuable insights and unique abilities to contribute as partners with other health care professionals in improving the quality and safety of care as envisioned in the Affordable Care Act (ACA) enacted this year. Nurses should be fully engaged with other health professionals and assume leadership roles in redesigning care in the United States. To ensure its members are well-prepared, the profession should institute residency training for nurses, increase the percentage of nurses who attain a bachelor's degree to 80 percent by 2020,

and double the number who pursue doctorates. Furthermore, regulatory and institutional obstacles -- including limits on nurses' scope of practice -- should be removed so that the health system can reap the full benefit of nurses' training, skills, and knowledge in patient care. In this book, the Institute of Medicine makes recommendations for an action-oriented blueprint for the future of nursing.

In this Fourth Edition of renowned authority Frances Fowler's Policy Studies for Educational Leaders, future educational leaders and actual K-12 administrators get a solid, comprehensive grounding in education policy and the policy process and the important political theories upon which it is based. Included is essential background information about the cultural, economic, demographic, and institutional roots of educational policy and an incisive look at the history of educational policy.

Throughout the postwar history of Indonesia,

the military have played a key role in the politics of the country and in imposing unity on a fragmentary state. The collapse of the authoritarian New Order government of President Suharto weakened the state and the armed forces briefly lost their grip on control of the archipelago. However, under President Megawati, the military has again begun to assert itself, and re-impose its heavy hand on control of the state, most notably in the fracturing outer provinces. Based on extensive original research, this book examines the role of the military in Indonesian politics. It looks at the role of

the military historically, examines the different ways it is involved in politics, and considers how the role of the military might develop in what is still an uncertain future.

Although over eighty percent of the country is Muslim, Indonesia is marked by an extraordinary diversity in language, ancestry, culture, religion and ways of life. This book focuses on the Christian Dani of West Papua, providing a social and ethnographic history of the most important indigenous population in the troubled

province. It presents a fascinating overview of the Dani's conversion to Christianity, examining the social, religious and political uses to which they have put their new religion. Based on independent research carried out over many years among the Dani people, the book provides an abundance of new material on religious and political events in West Papua. Underlining the heart of Christian-Muslim rivalries, the book questions the fate of religion in late-modern times.

Which levels of government hold powers over forests and land use in Indonesia? Which powers and responsibilities are centralized, and which are decentralized? What role can citizens play? This report reviews the statutory distribution of powers and responsibilities across levels and sectors. It outlines the legal mandates held by national, regional and local governments with regard to land and forests, including titling, forest concessions, oil and minerals investments, oil palm plantations, conservation, land use planning, and more.

The review considers national legislation as of 2014 and incorporates important reforms in early 2015. After a short introduction, the second section describes the decentralization process, including mechanisms for public participation. The third section outlines sources of revenue available to different government levels from forest fees and payments for environmental services. The fourth section details the specific distribution of powers and arenas of responsibility related to multiple land use sectors across levels and among offices within levels, and the fifth and final
