The growth of the internet has been spectacular. There are now more 1.5 billion internet users across the globe, about one quarter of the world ' s population. This is certainly a new phenomenon that is of enormous significance for the economic, political and social life of contemporary societies.

Download Free Internet Vs

However, much popular and academic writing about the internet takes a technologically deterministic view, assuming that the internet ' s potential will be realised in essentially transformative ways.

This was especially true in the euphoric moment of the mid-1990s, when many commentators wrote about the internet
