A captivating picture book biography of a boy who imagined a world full of dragons and grew up to be beloved author J. R. R. Tolkien. John Ronald loved dragons. He liked to imagine dragons when he was alone, and with his friends, and especially when life got hard or sad. After his mother died and he had to live with a cold-hearted aunt, he looked for dragons. He searched for them at his boarding school. And when he fought in a Great War, he felt as if terrible, destructive dragons were everywhere. But he never actually found one, until one day, when he was a grown man but still very much a boy at heart, when he decided to create one of his own. John Ronald's Dragons, a picture book biography by Caroline McAlister and illustrated by Eliza Wheeler, introduces the beloved creator of Middle Earth and author of The Hobbit and The Lord of the Rings to a new generation of children who see magic in the world around them.

Middle Earth, Gandalf, Frodo, Bilbo: The places and characters that sprang from the mind of J.R.R. Tolkien will live forever in the imaginations of millions of readers. In *Hobbits, Elves, and Wizards*, Michael Stanton, a scholar of science fiction and fantasy literature, offers an extraordinary encounter with The Lord of the Rings. Believing that there is no epic of contemporary literature to match The Lord of the Rings, Stanton delves critically into the richness of the story. He explores the intricacies of its dialogue and illuminates the idiosyncratic nature of its characters. He looks at places, dreams, notions of time and history. Eschewing academic jargon, Stanton provides an intriguing look at Tolkien's fantasyscape that ultimately shows how all of these parts meld into a singularly compelling work of art that lives and breathes. For those who have read and loved The Lord of the Rings, Stanton embarks on an exploration of Tolkien's genius, painting a rich and wonderful critical portrait of the world he created, a portrait that no one who truly hopes to understand Tolkien's vision will want to be without.

After discovering the true nature of the One Ring, Bilbo Baggins entrusts it to the care of his young cousin, Frodo, who is charged with bringing about its destruction and thus foiling the plans of the Dark Lord.

This dissertation first examines current research on the topic of role modeling. It then addresses role modeling behavior as it relates to theatre for young audiences. To focus the subject matter, J.R.R. Tolkien's story, *The Hobbit*, has been selected for this study. The story's particularly benevolent protagonist, Bilbo Baggins, provides a model of positive behavior in the story *The Hobbit*. After examining the book's protagonist, using Suzan Zeder's character analysis system, this study then applies this system to five theatrical adaptations of Tolkien's story. After a detailed examination of character traits, this study has determined that these five adaptations for young audiences alter Tolkien's original protagonist. Several of the adaptations portrayed Bilbo Baggins as a violent and selfish protagonist, instead of providing a model of pro-social behavior. The conclusions of this dissertation speculate on the interpretive and technical causes of these character alterations. Following the analysis, this dissertation offers several suggestions which may aid playwrights of children's theatre who use stories for their source material.

A detailed work of reference and scholarship, this one volume Encyclopedia includes discussions of all the fundamental issues in Tolkien scholarship written by the leading scholars in the field. Coverage not only presents the most recent scholarship on J.R.R. Tolkien, but also introduces and explores the author and scholar's life and work within their historical and cultural contexts. Tolkien's fiction and his sources of influence are examined along with his artistic and academic achievements - including his translations of medieval texts - teaching posts, linguistic works, and the languages he created. The 550

Analyzes Tolkien's "The Hobbit," "The Lord of the Rings," "The Silmarillion," and his lesser works, and explains how his works tie into storytelling tradition dating back to Grimms' fairy tales and "Beowulf."

Selected essays on Tolkien's trilogy include W. H. Auden's essay on the hero's quest, C. S. Lewis's piece on the value of myth, Marion Zimmer Bradley's article on hero worship, Tim Shippey's piece on the film trilogy, and much more. Original.

J. R. R. Tolkien is arguably the most influential and popular of all fantasy writers. Although his position and status have long been controversial, his popularity has not faded. His best-loved works, *The Hobbit* and *The Lord of the Rings*, have sold millions of copies around the world and continue to enthral readers young and old. This lively collection of original essays examines *The Hobbit* and *The Lord of the Rings* in the light of children's literature theory and approaches, as well as from adult and fantasy literature perspectives. Exploring issues such as gender, language, worldbuilding, and ecocriticism, the volume also places Tolkien's works in the context of a range of visual media, including Peter Jackson's film adaptations.
