Educationeering

2014 Integrated

Science

describes the author's areas of professional and academic concern for the past 55 years.

Educationeering can be defined as directing the triple academic functions of Research, Teaching and Responsive Social Engagement towards the education challenges of society. Prof. Obanya is

systems more generally
and the South African
examination specifically.

Read Book

Junior Waec

It traces the reforms in the education system of South Africa since 1994 and provides a description of the advances in modern test theory that could be considered for future standard setting endeavours. At the heart of the book is the debate on whether the current standard of education in Africa is good enough . If

Read Book

Junior Waec

not, then how can it be improved? The aim of this book is to provide a point of departure for discussions on standard-setting, quality assurance, equating of examinations and assessment approaches. From this point of departure recommendations for practices in general and the exit-level (Grade 12) examination results in

This book is ideal reading for principals, teachers, academics and researchers in the fields of educational assessment, measurement, and evaluation.

Textbooks play a key role in enhancing the quality of learning, especially in the context of low-income Sub-Saharan

African (SSA) countries characterized by large class-size, poorly motivated and inadequately trained teachers, and short effective school years.

There are also high rates of illiteracy among parents and few reading materials at home for the student to bank on.

Despite extensive investments by

Junior Waec

governments, the World Bank and other development partners, the majority of students in primary and secondary schools in SSA still lack the benefit of access to textbooks and the key reason for this shortage is affordability: textbooks are generally much more costly in SSA than in other developing regions. The need to

Junior Waec

increase access to key learning resources is of particular urgency because most African countries experience low learning outcomes which in part contributes to a high drop-out rate. Only two-thirds of those who enter school reach the final grade and only about half of these master basic numeracy and literacy skills. And
