Clinical Case Studies for the Family Nurse Practitioner is a key resource for advanced practice nurses and graduatestudents seeking to test their skills in assessing, diagnosing, andmanaging cases in family and primary care. Composed of morethan 70 cases ranging from common to unique, the book compilesyears of experience from experts in the field. It is organizedchronologically, presenting cases from neonatal to geriatric carein a standard approach built on the SOAP format. Thisincludes differential diagnosis and a series of critical thinkingquestions ideal for self-assessment or classroom use.

Japan was shaken by the 'double disaster' of earthquake and sarin gas attack in 1995, and in 2011 it was hit once again by the 'triple disaster' of earthquake, tsunami, and nuclear meltdown. This international, multi-disciplinary group of scholars examines the state and societal responses to the disasters and social crisis.

Japan's jazz community—both musicians and audience—has been begrudgingly recognized in the United States for its talent, knowledge, and level of appreciation. Underpinning this tentative admiration, however, has been a tacit agreement that, for cultural reasons, Japanese jazz “can't swing.” In *Blue Nippon* E. Taylor Atkins shows how, strangely, Japan's own attitude toward jazz is founded on this same ambivalence about its authenticity. Engagingly told through the voices of many musicians, *Blue Nippon* explores the true and legitimate nature of Japanese jazz. Atkins peers into 1920s dancehalls to examine the Japanese Jazz Age and reveal the origins of urban modernism with its new set of social mores, gender relations, and consumer practices. He shows how the interwar jazz period then became a troubling symbol of Japan's intimacy with the West—but how, even during the Pacific war, the roots of jazz had taken hold too deeply for the “total jazz ban” that some nationalists desired. While the allied occupation was a setback in the search for an indigenous jazz sound, Japanese musicians again sought American validation. Atkins closes out his cultural history with an examination of the contemporary jazz scene that rose up out of Japan's spectacular economic prominence in the 1960s and 1970s but then leveled off by the 1990s, as tensions over authenticity and identity persisted. With its depiction of jazz as a transforming global phenomenon, *Blue Nippon* will make enjoyable reading not only for jazz fans worldwide but also for ethnomusicologists, and students of cultural studies, Asian studies, and modernism.

\*This book details more than 400 kamikaze attacks performed by Japanese aircraft, manned torpedoes, suicide boats and suicide swimmers against U.S. ships during World War II. Part One focuses on the traditions, development and history. Part Two details the kamikaze attacks on ships. Appendices list all of the U.S. ships suffering kamikaze attacks"--Provided by publisher.

This volume consists of nine articles dealing with topics in distinctive feature theory in various typologically diverse languages, including Acehnese, Afrikaans, Basque, Dutch, Finnish, French, German, Hungarian, Japanese, Korean, Navajo, Portuguese, Tahltan, Terena, Tswana, Tuvan, and Zoque. The subjects dealt with in the book include feature geometry, underspecification (in rule-based and in Opti-mality Theoretic treatments) and the phonetic implementation of phonological features. Other topics include laryngeal features (e.g. [voice], [spread glottis], [nasal]), and place features for consonants and vowels. The volume will be of interest to all linguists and advanced students of linguistics working on feature theory and/or the phonetics-phonology interface.

"Don't start an art collective until you read this book." —Guerrilla Girls "Ever since Web 2.0 with its wikis, blogs and social networks the art of collaboration is back on the agenda. Collectivism after Modernism convincingly proves that art collectives did not stop after the proclaimed death of the historical avant-gardes. Like never before technology reinvents the social and artists claim the steering wheel!" —Geert Lovink, Institute of Network Cultures, Amsterdam "This examination of the succession of post-war avant-gardes and collectives is new, important, and engaged." — Stephen F. Eisenman, author of *The Abu Ghraib Effect* "Collectivism after Modernism crucially helps us understand what artists and others can do in mushy, stinky times like ours. What can the seemingly powerless do in the face of mighty forces that seem to have their act really together? Here, Stimson and Sholette put forth many good answers." —Yes Men Spanning the globe from Europe, Japan, and the United States to Africa, Cuba, and Mexico, *Collectivism after Modernism* explores the ways in which collectives function within cultural norms, social conventions, and corporate or state-sanctioned art. Together, these essays demonstrate that collectivism survives as an influential artistic practice despite the art world's star system of individuality. *Collectivism after Modernism* provides the historical understanding necessary for thinking through postmodern collective practice, now and into the future. Contributors: Irina Aristarkhova, Jesse Drew, Okwui Enwezor, Ruben Gallo, Chris Gilbert, Brian Holmes, Alan Moore, Jelena Stojanović, Reiko Tomii, Rachel Weiss. Blake Stimson is associate professor of art history at the University of California Davis, the author of *The Pivot of the World: Photography and Its Nation*, and coeditor of *Visual Worlds and Conceptual Art: A Critical Anthology*. Gregory Sholette is an artist, writer, and cofounder of collectives *Political Art Documentation/Distribution* and *REPO*history. He is coeditor of *The Interventionists: Users' Manual for the Creative Disruption of Everyday Life*. "To understand the various forms of postwar collectivism as historically determined phenomena and to articulate the possibilities for contemporary collectivist art production is the aim of *Collectivism after Modernism*. The essays assembled in this anthology argue that to make truly collective art means to reconsider the relation between art and public; examples from the Situationist International and Group Material to Paper Tiger Television and the Congolese collective *Le Groupe Amos* make the point. To construct an art of shared experience means to go beyond projecting what Blake Stimson and Gregory Sholette call the "imagined community": a collective has to be more than an ideal, and more than communal craft; it has to be a truly social enterprise. Not only does it use unconventional forms and media to communicate the issues and experiences usually excluded from artistic representation, but it gives voice to a multiplicity of perspectives. At its best it relies on the participation of the audience to actively contribute to the work, carrying forth the dialogue it inspires." —BOMB

Napalm was invented on Valentine's Day 1942 at a secret Harvard war research laboratory. It created an inferno that killed over 87,500 people in Tokyo—more than died in the atomic explosions at Hiroshima or Nagasaki—and went on to incinerate 64 Japanese cities. The Bomb got the press, but napalm did the work. Robert Neer offers the first history.
