A never-before published tale by the author of the best-selling Hittite Warrior, carries the reader back to Ancient Egypt and biblical Jerusalem. It is 701 B.C-rule of the Kushite dynasty in ancient Egypt. Young Prince Taharka, a very minor royal son, succeeds unexpectedly to the throne of Kush and Egypt--a divine rulership. It's not long, however, before a treacherous plot pushes him into sudden exile and into the hands of Amos, an emissary of King Hezekiah seeking help against the Assyrians. Posing as a medical assistant, Taharka journeys with Amos to Judea where he encounters two kings in conflict. His true identity suddenly uncovered, he must choose with whom he will fight-the mighty Assyrian, Sennacherib, promising alliance or Hezekiah, the Jew who trusts in Yahweh. A novel inspired by research on the historical King Taharka and his period.

The most up-to-date sourcebook on warfare in the ancient Near East Fighting for the King and the Gods provides an introduction to the topic of war and the variety of texts concerning many aspects of warfare in the ancient Near East. These texts illustrate various viewpoints of war and show how warfare was an integral part of life. Trimm examines not only the victors and the famous battles, but also the hardship that war brought to many. While several of these texts treated here are well known (i.e., Ramses II's battle against the Hittites at Qadesh), others are known only to specialists. This work will allow a broader audience to access and appreciate these important texts as they relate to the history and ideology of warfare. Features References to recent secondary literature for further study Early Greek and Chinese illustrative texts for comparisons with other cultures Indices to help guide the reader

2020 Anisfield-Wolf Book Award Winner Finalist for the National Book Critics Circle Award From an award-winning historian comes a dazzling history of the birth of cultural anthropology and the adventurous scientists who pioneered it--a sweeping chronicle of discovery and the fascinating origin story of our multicultural world. A century ago, everyone knew that people were fated by their race, sex, and nationality to be more or less intelligent, nurturing, or warlike. But Columbia University professor Franz Boas looked at the data and decided everyone was wrong. Racial categories, he insisted, were biological fictions. Cultures did not come in neat packages labeled "primitive" or "advanced." What counted as a family, a good meal, or even common sense was a product of history and circumstance, not of nature. In Gods of the Upper Air, a masterful narrative history of radical ideas and passionate lives, Charles King shows how these intuitions led to a fundamental reimagning of human diversity. Boas's students were some of the century's most colorful figures and unsung visionaries: Margaret Mead, the outspoken field researcher whose Coming of Age in Samoa is among the most widely read works of social science of all time; Ruth Benedict, the great love of Mead's life, whose research shaped post-Second World War Japan; Ella Deloria, the Dakota Sioux activist who preserved the traditions of Native Americans on the Great Plains; and Zora Neale Hurston, whose studies under Boas led directly into her now classic novel, Their Eyes Were Watching God. Together, they mapped civilizations from the American South to the South Pacific and from Caribbean islands to Manhattan's city streets, and unearthed an essential fact buried by centuries of prejudice: that humanity is an undivided whole. Their revolutionary findings would go on to inspire the fluid conceptions of identity we know today. Rich in drama, conflict, friendship, and love, Gods of the Upper Air is a brilliant and groundbreaking history of American progress and the opening of the modern mind.

Over the past seventy years, World Vision has grown from a small missionary agency to the largest Christian humanitarian organization in the world, with 40,000 employees, offices in nearly one hundred countries, and an annual budget of over \$2 billion. While founder Bob Pierce was an evangelist with street smarts, the most recent World Vision U.S. presidents move with ease between megachurches, the boardrooms of Fortune 500 companies, and the corridors of Capitol Hill. Though the organization has remained decidedly Christian, it has earned the reputation as an elite international nongovernmental organization managed efficiently by professional experts fluent in the language of both marketing and development. God's Internationalists is the first comprehensive study of World Vision—or any such religious humanitarian agency. In chronicling the organization's transformation from 1950 to the present, David P. King approaches World Vision as a lens through which to explore shifts within post-World War II American evangelicalism as well as the complexities of faith-based humanitarianism. Chronically the evolution of World Vision's practices, theology, rhetoric, and organizational structure, King demonstrates how the organization rearticulated and retained its Christian identity even as it expanded beyond a narrow American evangelical subculture. King's pairing of American evangelicals' interactions abroad with their own evolving identity at home reframes the traditional narrative of modern American evangelicalism while also providing the historical context for the current explosion of evangelical interest in global social engagement. By examining these patterns of change, God's Internationalists offers a distinctive angle on the history of religious humanitarianism.
