This IBM® Redbooks® publication  
presents a general introduction to the latest  
(current) IBM tape and tape library  
technologies. Featured tape technologies  
include the IBM LTO Ultrium and  
Enterprise 3592 tape drives, and their  
implementation in IBM tape libraries. This  
17th edition includes information about

# Online Library Lancer Audio Pinout Guide

the latest TS4300 Ultrium tape library, TS1155 Enterprise tape drive, and the IBM Linear Tape-Open (LTO) Ultrium 8 tape drive, along with technical information about each IBM tape product for open systems. It includes generalized sections about Small Computer System Interface (SCSI) and Fibre Channel connections, and multipath architecture configurations. This book also covers tools and techniques for library management. It is intended for anyone who wants to understand more about IBM tape products and their implementation. It is suitable for IBM clients, IBM Business Partners, IBM specialist sales representatives, and technical specialists. If you do not have a background in computer tape storage products, you might need to read other sources of information. In the interest of being concise, topics that are generally understood are not covered in detail.
