Nick Stone - deniable operator for British Intelligence - has been assigned to carry out an officially-sanctioned assassination. When he realizes who the target is, he refuses. But he is then given a chilling ultimatum: fly to Central America and finish the job, or the eleven-year-old orphan in his care will get killed. His life is in pieces, but things only get worse when he finds himself caught at the centre of a lethal conspiracy involving Columbian guerrillas. Hundreds of innocent lives are at stake. Their only chance of rescue is Stone. But he has a critically injured friend to rescue, miles of dense rainforest to navigate and the toughest decision of his life to make...

Former Special Air Service agent Nick Stone sets his sights on al-Qaida in his fifth adventure and bestseller, Liberation Day. If Nick Stone wasn't so desperate for his American citizenship, he probably wouldn't have agreed to do this one last job with the CIA, but the offer of a new life in the United States and the chance to share it with Carrie, the woman he's fallen in love with, is one he cannot refuse. The job seems simple enough – and he is certainly skilled enough. Infiltrate the hostile, violent republic of Algeria, kill a money-laundering businessman, and bring back his severed head. Stone knows there are some questions you don't ask, but as events spin out of control he realizes there is vital information he hasn't been told. Lurking beneath the glamorous exterior of the south of France is a dirty drugs war – and Stone is thrown into the middle of it. And there he is faced with his toughest dilemma yet...

Inspired by his own career as an SAS soldier, Andy McNab's best selling series continues with Crisis Four as Nick Stone finds himself at the centre of a deadly game of cat and mouse when he is ordered to track down a rogue colleague. Nick Stone is extremely highly trained. Clever, ruthless and very effective, it is no surprise that he is hired by British Intelligence. On deniable operations - one of the most dangerous lines of work. Sarah Greenwood is beautiful, intelligent and cunning - and the only woman Stone has ever truly opened up to. But now he has been ordered to hunt her down. Stone must get to the heart of a terrifying conspiracy theory to which only Sarah holds the key. But will he manage to before the tension reaches boiling point?

Inspired by his own career as a special forces soldier, Andy McNab debuts his best-selling series with action-packed, high-octane Remote Control, a thrilling page turner you won't be able to put down featuring ex-SAS trooper Nick Stone. Tough, resourceful, ruthless - as a Special Air Service (SAS) trooper, Nick Stone was one of the best. Now he's back on the streets. After a botched mission, the Regiment no longer want his services, but British Intelligence does - as a deniable operator. It's the dirtiest job in a very, very dirty world. In Washington DC, it's about to get dirtier still. On the apparently routine tail of two terrorists, Stone discovers the bodies of an ex-SAS officer and his family. Soon he's on the run with the lone survivor of the bloodbath - a seven year old girl. And whilst she can identify the killers, only Stone can keep them at bay - and solve a mystery whose genesis takes him back to the most notorious SAS mission in recent history... Remote Control is the first of Andy McNab's nineteen Nick Stone thrillers - bestsellers whose landscape is so compellingly close to the truth that they had to be vetted by the Ministry of Defence, and could only be published as fiction...

Nick Stone, deniable operator for British Intelligence, has been assigned to carry out an officially-sanctioned assassination. When he realizes who the target is, he refuses. But he is then given a chilling ultimatum: fly to Central America and finish the job, or the 11-year-old orphan in his care will get killed. Stone arrives in sweltering Panama, close to breaking point. His life is in pieces, but things only get worse when he finds himself caught at the centre of a lethal conspiracy involving Columbian guerrillas. Hundreds of innocent lives are at stake. Their only chance of rescue is Stone. But he has a critically injured friend to rescue, miles of dense rainforest to navigate and the toughest decision of his life to make.

Ex-deniable operator Nick Stone has spent a lifetime in harm's way - but when someone he cares for very deeply is murdered in cold blood, he can no longer just take the pain. A high-level interecine conflict at the dark heart of the resurgent Russian Empire and an assassin's bullet on an isolated Alpine pass propel him from an apparently run-of-the-mill close-protection task into his most brutal and challenging mission yet. As the body count increases, Stone becomes one of Europe's Most Wanted. He must evade the elite police forces of three nations in his pursuit of faceless men who trade in human misery, and a lone wolf terrorist who threatens to unleash the Western World's worst nightmare. Vengeance of the most explosive kind is top of Stone's agenda. The fuse has been ignited - but who really holds the detonator?

Former covert operator Nick Stone seems to be living his dream in book eight of the best-selling series - not a care in the world as he steers his camper van around the surfing and parachuting paradise of Australia. But when he sees a news report of the massacre of women and children in a terrorist outrage on the other side of the world, long-suppressed memories are triggered, and Nick knows he must risk everything to repay a longstanding debt of friendship. As events unfold in the teeming streets of modern Istanbul and the bleak, medieval villages of Georgia, Nick finds himself catapulted once more into the murky, clandestine world he thought he'd left behind - a world in the grip of nameless enemies who linger in the shadows, and stalk the corridors of power...

A hair-raising follow-up to Andy McNab's thrilling series, Firewall finds ex-SAS trooper Nick Stone in desperate need of cash, soon finding himself in the middle of a Russian offensive to relaunch the Cold War. When he is offered a lucrative freelance job, Stone thinks his problems are over. All he needs to do is kidnap a Russian mafia warlord. All Stone needs to do is kidnap a Russian mafia warlord. Soon Stone is thrust into the grim underworld of Estonia, with unknown aggressors stalking the Arctic landscape. Russia has launched a cyber-espionage attack, hacking into the West's most sensitive military secrets. Stone must stop them, but the mafia are waiting in the wings with their own chillingly brutal solution...

A cargo ship is apprehended by the authorities off the coast of Spain, packed with enough arms and ammunition to start a war. Twenty years later, an unknown aggressor seems intent on taking out those responsible for the treachery - one by one. The last victim was brutally tortured with a Black & Decker drill and then shot through the head at point-blank range. And Nick Stone - ex-SAS, tough, resourceful, ruthless, highly trained - is next on the killer's list. He has only two options - fight or flight - but which do you choose when you don't know who you are up against?

Ex-deniable operator Nick Stone is bodyguarding a TV crew on the streets of war-torn Basra. He seems certain to die when insurgent gunmen attack. Only a reporter's swift action saves his life. When the reporter vanishes within hours, presumed kidnapped, Stone is asked by the Intelligence Service to find him. The trail leads from Iraq to London, Dublin, and Kabul - the brutal city where governments, terrorism and big business collide. Caught in the crossfire, Stone's nightmare is only just beginning - for the hunter has suddenly become the hunter...
