A KID'S GUIDE TO THE OCEAN "Can you imagine a world without fish? It's not as crazy as it sounds. But if we keep doing things the way we've been doing things, fish could become extinct within fifty years. So let's change the way we do things!" World Without Fish is the uniquely illustrated narrative nonfiction account for kids of what is happening to the world's oceans and what they can do about it. Written by Mark Kurlansky, author of Cod, Salt, The Big Oyster, and many other books, World Without Fish has been praised as "urgent" (Publishers Weekly) and "a wonderfully fast-paced and engaging primer on the key questions surrounding fish and the sea" (Paul Greenberg, author of Four Fish). It has also been included in the New York State Expeditionary Learning English Language Arts Curriculum. Written by a master storyteller, World Without Fish connects all the dots—biology, economics, evolution, politics, climate, history, culture, food, and nutrition—in a way that kids can really understand. It describes how the fish we most commonly eat, including tuna, salmon, cod, swordfish—even anchovies—could disappear within fifty years, and the domino effect it would have: the oceans teeming with jellyfish and turning pinkish orange from algal blooms, the seabirds disappearing, then reptiles, then mammals. It describes the back-and-forth dynamic of fishermen, who are the original environmentalists, and scientists, who not that long ago considered fish an endless resource. It explains why fish farming is not the answer—and why sustainable fishing is, and how to help return the oceans to their natural ecological balance. Interwoven with the book is a twelve-page graphic novel. Each beautifully illustrated chapter opener links to the next to form a larger fictional story that perfectly complements the text.

"A searing and emotionally gripping account of a young black girl growing up to become a strong black woman during the most difficult time of racial segregation."—Professor Charles Ogletree, Harvard Law School "Provides important context for an important moment in America's history."—Associated Press When fourteen-year-old Carlotta Walls walked up the stairs of Little Rock Central High School on September 25, 1957, she and eight other black students only wanted to make it to class. But the journey of the "Little Rock Nine," as they came to be known, would lead the nation on an even longer and

An exquisitely illustrated paean to everyone who struggles to learn how to read, and to everyone who won't give up on them. Cal is not the readin' type. Living way high up in the Appalachian Mountains, he'd rather help Pap plow or go out after wandering sheep than try some book learning. Nope. Cal does not want to sit stoney-still reading some chicken scratch. But that Book Woman keeps coming just the same. She comes in the rain. She comes in the snow. She comes right up the side of the mountain, and Cal knows that's not easy riding. And all just to lend his sister some books. Why, that woman must be plain foolish—or is she braver than he ever thought? That Book Woman is a rare and moving tale that honors a special part of American history—the Pack Horse Librarians, who helped untold numbers of children see the stories amid the chicken scratch, and thus made them into lifetime readers.

Therefore, this book encourages learners to actively engage with texts (technical, scientific, social studies, and literary) by predicting, making connections and inferences, asking and answering questions, and completing the comprehension activities, and from Comprehending to Critiquing. Reading Strategies There are a variety of research-based strategies presented in this manual: Identifying Primary and Secondary Sources, Message and Theme, How to Evaluate an Argument, Vocabulary Acquisition and Reading Comprehension, Activating background or prior knowledge, Making inferences and prediction, Using visual imagery, Using context clues to build vocabulary, Reading for main ideas, Patterns for Organizing Text, Understanding Figurative Language, Denotation and Connotation of Words, and Summarizing. These examples will help you to understand the strategy, show you how it works, and give you concrete experience and practice. As you read, study, and work through these examples, you will build the confidence to succeed. You will become a purposeful, strategic, critical reader.
