This thoroughly updated review provides the information needed for certification in medical-surgical nursing from the credentialing arms of the American Academy of Medical-Surgical Nurses and the American Nurses Association. It covers all topics on the exam and includes review questions, posttests, and answers with rationales. This edition reflects current NANDA Taxonomy II nursing diagnoses, arranged by nursing domain, and recent CDC infection prevention and control guidelines. The cardiovascular chapter reflects the latest information on acute coronary syndrome differential care and American Heart Association guidelines for emergency cardiovascular care. The appendix on oncology care issues and nursing implications has been expanded.

Lippincott's Review for Medical-Surgical Nursing Certification, Fifth Editionprovides the information nurses need to achieve certification in the specialty of medical-surgical nursing. This helpful reference covers the broad range of content found on the actual examinations, including disorders by body system, such as coronary artery disease, COPD, and diabetes. The product reviews signs and symptoms, diagnostic tests, medical treatments, nursing assessments, and interventions for scores of health problems. Concise refreshers on wound care, perioperative nursing, collaborative practice, nursing research, and legal issues are also included. Review questions after each chapter and an end-of-book posttest help assess the nurse's preparedness for the exam. The book is appropriate for exams of both major certifying bodies: the ANCC and the AMSN.
