This book presents operational and practical issues of automotive mechatronics with special emphasis on the heterogeneous automotive vehicle systems approach, and is intended as a graduate text as well as a reference for scientists and engineers involved in the design of automotive mechatronic control systems. As the complexity of automotive vehicles increases, so does the death of high competence, multi-disciplined automotive scientists and engineers. This book provides a discussion into the type of mechatronic control systems found in modern vehicles and the skills required by automotive scientists and engineers working in this environment. Divided into two volumes and five parts, Automotive Mechatronics aims at improving automotive mechatronics education and emphasises the training of students' experimental hands-on abilities, stimulating and promoting experience among high education institutes and produce more automotive mechatronics and automation engineers. The main subject that are treated are: VOLUME I: RBW or XBW unibody or chassis-motion mechatronic control hypersystems; DBW AWD propulsion mechatronic control systems; BBW AWB dispulsion mechatronic control systems; VOLUME II: SBW AWS diversion mechatronic control systems; ABW AWA suspension mechatronic control systems. This volume was developed for undergraduate and postgraduate students as well as for professionals involved in all disciplines related to the design or research and development of automotive vehicle dynamics, powertrains, brakes, steering, and shock absorbers (dampers). Basic knowledge of college mathematics, college physics, and knowledge of the functionality of automotive vehicle basic propulsion, dispulsion, conversion and suspension systems is required.

Following the death of his father, the owner of East Yarmouth Animal Sanctuary, Kit Lavery returns to Britain from Australia to sort out his father's affairs. His visit is intended to be brief, but on arrival at the down-at-heel animal sanctuary, Kit finds it staffed by two very determined women. Elizabeth Punch and Jess Wetherby. Elizabeth is a woman with a mission - to save animals from inconsiderate man. And Jess Supple has one burning desire - to keep alive the work of the old man who took her under his wing when she was a placard-waving hunt saboteur. As the two women cajole, berate and demand that Kit stay and carry on his father's good work, he finds life becoming increasingly complicated. And when GM crop trials are proposed in the fields surrounding his farm, his scruples are tested to the limit, and not everyone is happy with his decision. It seems that blood may be spilt before the Animal Sanctuary, with its assorted inhabitants, is out of the woods...
